Earthquake Horrors in Mexico

Legs of victims stick out of rubble as rescue workers try to get at them with digging tools.

Four-story apartment building flattened, one floor upon another. Note rows of crushed Venetian blinds. A dozen cars in a parking lot next door were buried in debris of this building.

THE DEAD were still uncounted when these photos were made of Mexico's worst earthquake in history. Mexico City, with 4,000,000 population, suffered heaviest casualties and damage, but many cities in the Mexico City area also were shaken, with damage and casualties.

Small Block Key To Rights Bill Vote

WASHINGTON (AP)—A half dozen undecided senators were reported today to hold the fate of the proposed jury trial amendment to the administration's civil rights bill.

An intense struggle behind the scenes to enlist this small, undecided bloc was paralleled by efforts of the amendment's opponents and its supporters to marshal their full strength when a showdown vote comes, possibly not for several days.

As an indication of the uncertainty about the outcome, a coalition of the civil rights bill's backers won a promise from Sen. Payne (R-Maine), who has been ill in Maine, to fly to Washington

to cast his vote against the jury trial proposal.

On the other hand, supporters of the amendment hoped that Sen. Bridges (R-NH), who has been recuperating in New Hampshire from an illness, might be well enough to be on hand and might cast his vote with them. Bridges, chairman of the Senate Republican Policy Committee, has made no public commitment on the jury trial proposal.

SEN. LYNDON B. JOHNSON of Texas, the Democratic leader, said he hopes to get the Senate to lay aside the civil rights bill temporarily to work on other unfinished business.

Senators O'Mahoney (D-Wyo.), Kefauver (D-Tenn.), and Church (D-Idaho) have proposed a civil rights bill amendment which would provide for jury trials in criminal contempt cases growing out of alleged interference with voting rights.

It is broad enough to guarantee such trials for defendants in any type of case in which a court intends to punish a defendant who originally violated its order even if he later signed his would comply.

Woman Surrenders In Death Probe

DAYTON (AP)—Police said Mrs. Ann Murray, 40, sought since July 24 for questioning in the slaying of Mrs. Albert Cobb, 40, gave herself up Monday night.

Mrs. Cobb was wounded fatally in the kitchen of her home. Detectives said they learned the two women had been in an argument several hours before the shooting. Mrs. Murray is accused by police of having gone to the Cobb home in a taxicab, entering the kitchen and firing a revolver at Mrs. Cobb. Police said there were three witnesses to the shooting.

O'Neill Aide To Quit

COLUMBUS (AP)—Gwynne Myers today resigned as an assistant to Gov. C. William O'Neill, effective Aug. 15. He said he will enter private law practice in Columbus.

Thrill-Killer Leopold Awaits Mercy Decision

Illinois Governor Weighs Case Against Famed Chicago Slayer

SPRINGFIELD, Ill. (AP)—Nathan Leopold, a prisoner for his kill-for-a-thrill experiment since 1924, learns today whether he may become a free man this year.

The judge who ordered him put away for 99 years said he hoped that Leopold's sentence was one for life and that there would be "no parole."

Leopold, now 52, with 33 years of experience as a model convict, is seeking his freedom on the ground that he has been rehabilitated.

An educator and onetime guinea pig of prison malaria experiments Leopold says, "I ask not for justice, but for the mercy I did not show."

His answer hinges upon the action of Gov. William G. Stratton in response to Leopold's plea for a second reduction of his sentence.

Leopold was 19 when he and Richard Loeb, also 19, entered the penitentiary at Joliet for the slaying of Bobby Franks, 14-year-old son of a wealthy Chicagoan.

LOEB IS DEAD, knifed by a fellow convict he outraged in 1936.

Leopold, a model prisoner, was granted a cut in his sentence to 85 years in 1949 by former Gov. Adlai Stevenson for serving, with other convicts, as a guinea pig in wartime tests of experimental malaria drugs.

He asked the parole board July 9 to recommend a further reduction of his term to 64 years—which would make him eligible for release Dec. 11 this year under the penal provision which sets one half of the total term plus 15 months for prisoners with good records.

Leopold, his health but little impaired by chronic diabetes, has carved an unusual career within the limitations of his prison environment.

Classed as a brilliant student by alienists at his trial, he had won a bachelor of science degree from the University of Chicago at 18. In prison, he has pursued his studies independently.

With Loeb, a few years after they were imprisoned, he organized a prison correspondence school which is well rated academically. He organized and expanded the prison library. He has held most of the inmate jobs requiring brain work at Stateville, including operation of the hospital X-ray laboratory, and correspondence in the administrative office.

LEOPOLD, reviewing his prison life, said, "I have tried to do good in prison. But nothing I have done is of intrinsic, lasting importance."

"My work has been the equivalent of making mental mud pies, giving me something to be interested in, something to do."

Leopold has ample finances against the day of his freedom. His father's will established a \$50,000 trust fund for him. He estimated recently that its value has grown to \$170,000.

Coldwater Labor Parley Collapses; New Offer Shunned

CELINA (AP)—Negotiations were broken off today in the 3½-month-long strike against the New Idea division of Avco Mfg. Corp.

The firm's plant at nearby Coldwater manufactures farm implements. Some 1,100 members of the United Steelworkers Union have been striking since April 15.

After 11 hours of union-management talks Monday, the longest sustained period of negotiations since the strike began, the company said it had informed federal mediators that it had made its "final" offer.

The company said it had added two cents to its previous "final" wage offer, hiking pay 13½ cents hourly per average employee. It said the union insisted on two cents more. Present wage levels range from \$1.55 to \$2.40 hourly.

Mexico City Rubble Yields More Victims

MEXICO CITY (AP)—A crew of 500 men dug into the ruins of an apartment building today seeking the last victims of Sunday's earthquake.

The five-story apartment house which crumbled into a pile of concrete and dust was the worst death trap of the 50 old buildings that collapsed in the capital.

By early today 32 bodies had been pulled from the rubble and another victim had died in a hospital. This brought the number of known dead in Mexico City to 52 and the total for the country to 66. All were Mexicans.

Eleven persons were removed alive from the building. One woman was pulled out Monday after being pinned under a pile of wreckage for 28 hours. A mattress which fell on her had saved her.

Most cities in the quake zone frequented by American tourists escaped without damage or casualties. Even in Acapulco, where three persons were killed, damage was relatively minor.

In Mexico City, 20 damaged buildings were marked for demolition. Twenty-one movie houses and five theaters were closed for inspection.

Ohio Bell, Union To Talk

CLEVELAND (AP)—The Communications Workers of America and Ohio Bell Telephone Co. open negotiations Wednesday on a contract for 18,500 workers. The present contract expires Sept. 7.

Anderson, S. C. (AP)—"We oughta everyone give a big cheer for God right now!" shouted someone in the crowd.

The crowd roared in agreement as a weary man climbed out of the 40-foot rescue shaft carrying 17-month-old Yvonne Beasley in his arms. The baby had fallen into a 35-foot abandoned well.

"She's OK," yelled rescuer Red Roberts.

But for four terrible hours Monday night, no one could be sure 17-month-old Yvonne would come out

alive. Her 3-year-old brother Richard David wept with his parents, begging for his sister to come out of the hole.

"That's all he kept saying the whole time," Mrs. J. B. Beasley said today. "He just kept crying and saying, 'I want my sister out of the hole.'"

Richard and his chubby, brown-haired, blue-eyed sister were playing in the yard Monday evening while their mother fixed supper.

"Richard came running in the

CONFESSION SIGNED IN SHEPPARD CASE

Bricker Backs Ohio Farmer

Wheat Grower Faces New Penalty on Crop

NORWALK (AP)—In his fight against wheat planting controls, farmer John Donaldson of New London got an assist from Sen. John W. Bricker this week and got slapped with a new \$322 penalty for allegedly overplanting his 1957 allotment.

Bricker sent Donaldson a report the senator had requested from the Ohio Agricultural Stabilization and Conservation Committee.

The report described Donaldson as "the ringleader in influencing others to defy the wheat program in Huron County." For this reason, it said, legal action was recommended.

Through the federal district court at Toledo, the government is attempting to collect \$205 in wheat marketing penalties assessed against Donaldson in 1956.

The new penalty, for the 1957 planting, is based on overplanting an 11-acre allotment by 12 acres for an excess yield of 288 bushels.

Donaldson said the \$322.66 amount of the new penalty was "more than I could get for all my wheat at market value if I could sell it."

IN HIS FEDERAL court case, Donaldson is refusing to pay the 1956 assessment on grounds the wheat planting controls violate his constitutional rights to grow as much wheat as he wants for use on his own farm as livestock feed.

In a letter accompanying the report sent to Donaldson, Senator Bricker wrote:

"I am very much interested in the steady growth of resistance to the wheat penalty section of the Agricultural Adjustment Act."

"I believe the section should be abolished, particularly as it applies to food, feed and seed grain, and have made every possible effort to secure such action."

U. S. Formally Joins World A-Agency

WASHINGTON (AP)—The United States has formally become a member of the International Atomic Energy Agency, an outgrowth of President Eisenhower's 1953 "atoms for peace" proposals.

Eisenhower signed the pact Monday. Russia and Britain were the first two major powers to adopt the pact. The United States was the 22nd.

Under the international agency plan, the President may enter into agreements with the agency whereby uranium 235 would be made available for distribution in other countries for peaceful purposes.

Golf Ball Size Hail Bares Hares

HELMOSA, S. Dak. (AP)—A hail storm so severe it ripped fur from rabbits hit this southwestern South Dakota area, leveling crops and damaging buildings.

Carl Libman said hailstones as large as golf balls piled up to a depth of two to three feet.

He said he saw rabbits that had been stripped of their fur by the stones and that cattle tore through fences as they tried to escape.

Dr. N. M. Reiff Dies Of Heart Attack

Dr. N. M. Reiff, 52, died in Memorial Hospital at 1:15 a. m. Tuesday, just a week after he had suffered a heart attack at his home, 404 Rawlings St.

A delicate operation performed by Dr. Thomas J. Hancock to massage his heart, literally brought him back to life, but his condition

remained critical, and there was little hope for his recovery.

Dr. Reiff, a native of Marion, came to Washington C. H. to enter the practice of medicine 22 years ago. At the time of his death he was Fayette County coroner.

He was graduated from the medical college of Western Reserve University in 1931 and served his internship in Lakeside Hospital, Cleveland. He continued his graduate studies at St. Luke's Hospital, Cleveland, and the State Hospital at Cleveland, with a view to specializing. However, he eventually decided to enter the general practice of medicine and came to Washington C. H.

FOR A TIME, he was active in several organizations but, since he had not been in the best of health, he gradually gave up his outside activity and devoted his time and energy to his family and profession. He had been troubled with the heart ailment, which eventually claimed his life, for some time.

During recent years, his chief outside interests were the Heart Assn. and Cancer Society; to both of these he lent his support through

Dulles Takes Hand In Arms Parley

LONDON (AP)—John Foster Dulles and U.S. disarmament experts locked themselves in the American Embassy today, to work out detailed plans for a limited "open skies" disarmament accord with Russia.

Dulles arranged to sit in later on a strategy meeting of the four Western delegations to the talks, representing the United States, Britain, France and Canada.

Also on tap for Dulles was a meeting with British Prime Minister Harold Macmillan and Foreign Secretary Selwyn Lloyd to discuss a wide range of diplomatic issues, including the tribal uprising in Muscat and Oman.

U.S. officials said it was possible that during his visit Dulles would meet with Soviet disarmament spokesman Valerian Zorin and attend at least one meeting of the U.N. disarmament subcommittee.

The secretary of state flew here from Canada Monday at the personal direction of President Eisenhower to review the talking now bogged down after five months.

Some Western observers interpreted Dulles' first statements here as an indication the West is less hopeful than before of obtaining a broader disarmament treaty at this time, and that he will attempt to salvage some sort of agreement on aerial inspection which would reduce the danger of surprise attack.

WASHINGTON (AP)—The Senate Insular Affairs Committee unanimously approved today bills to grant statehood to both Alaska and Hawaii.

PARIS (AP)—France's new austerity program, designed to save the franc from collapse and the government from bankruptcy, went into effect today with publication of new tax schedules. The sales tax was boosted to 25 per cent from the previous 19 per cent on luxury items.

Toledo Cops Believe Burglar Hurt in Fight

TOLEDO (AP)—Police today sought a burglar they believe they wounded as he fled from patrolmen.

The chase started early today as the man leaped from the roof of a cleaning establishment and ran down an alley with Patrolman Gene Hoffman firing at him. Later, Patrolman Donald Knapp fired at a man he spotted climbing a tree.

Residents of the area said they saw a man limping between houses, clutching his side.

Farm Girl, 13, Killed, Crushed by Tractor

WOOSTER (AP)—Mary Catherine Nussbaum apparently lost control when her foot slipped off the clutch of a tractor she was driving on the Leo Nussbaum farm near Dalton Monday.

Authorities said the 13-year-old girl fell from the tractor and was run over by a wheel and killed.

Florida Con Tells Attorney About Murder

Dr. Sam's Lawyer Now Must Get Action By Ohio Grand Jury

DELAND, Fla. (AP)—Donald J. Wedler today signed a statement that he killed Marilyn Sheppard, a Cleveland attorney for Dr. Samuel Sheppard reported.

William Corrigan said the 23-year-old convict "willingly signed the statement in the presence of Sheriff's Deputies Howard Demott and Jack Lynady."

The attorney's belief in Wedler's story is directly opposed to conclusions of Cleveland police officials after they talked with the prisoner a week ago.

"I think this guy did it," Corrigan said after talking to Wedler at Volusia County jail Monday.

Cleveland authorities, however, already have discounted a confession Wedler made two weeks ago. They say his confession was just 1 of 26 to the slaying on July 4, 1954, and that Wedler knows nothing more about the crime than he could have read in newspapers and magazines.

The lawyer who defended Dr. Sheppard in the trial which resulted in his conviction for the slaying of his wife and a life term, said:

"The confession of this man fits in with so many of the details with which we are familiar and convinces us beyond doubt that Donald Joseph Wedler is guilty of the murder."

"We plan to move immediately in the State of Ohio to bring this case to a successful conclusion."

Corrigan said Wedler told him he is willing to go back to Ohio, will waive extradition and will submit to examination and lie detector tests by anyone qualified except the Cleveland police department or the coroner.

How Corrigan would bring a murder charge against Wedler before a grand jury for indictment was not disclosed. Such a step would be necessary to bring him to trial in Ohio.

CORRIGAN SAID the Cleveland officers who saw Wedler last week and branded his story a hoax "obviously came down here with their minds made up."

His assistant, Fred Garmone, added that "The Cleveland police came down here to find out a few little things of no consequence and then went home."

Garmone said he was impressed by Wedler's location of a tree on

2 Men Named Carl Wise Find Much in Common

VAN WERT (AP)—Mr. and Mrs. Carl W. Wise and daughter of Milbank, S. D., were passing through Van Wert on a vacation trip. By chance, they noted the name of Carl E. Wise on a mailbox on the highway north of here.

The South Dakotans stayed overnight in Van Wert and went back to the Carl E. Wise home the next morning to compare notes. This is what they found:

1. Both Wise families attend a Calvary Evangelical United Brethren Church, many states apart.

2. Both Carl's are Masons and both of their wives are officers in the Eastern Star.

3. Both Carl Wises had a grandfather in Pennsylvania and both grandfathers were named George Wise.

4. Both Carl Wise families have one daughter, and the birthday anniversaries of both daughters fall on July 12.

Senator George Said In 'Grave' Condition

VIENNA, Ga. (AP)—Walter F. George, President Eisenhower's special ambassador to NATO, is reported in "very very critical" condition from a coronary occlusion.

Dr. J. L. Malloy, the 79-year-old former senator's hometown physician for 25 years, said George "is getting progressively weaker. He is in no pain but the outlook for him is very grave."

Curiosity Leads Man Indirectly Into City Jail

PHILADELPHIA (AP)—Heywood Butler is in Moyamensing Prison today because he's just natural curious.

Butler says he found a pair of handcuffs Monday while rummaging in the cupboard of an apartment he had recently moved into. Wondering if they worked, he snapped them on. They worked perfectly and Butler hadn't found a key either.

He went to the police station to have them removed. While a patrolman was getting handcuffs off, another policeman made a routine check of the records. It was found, Butler hadn't paid a \$25 fine given him in Municipal Court this week for carrying a concealed deadly weapon.

Butler couldn't raise the money and is in prison until he does.

How Corrigan would bring a murder charge against Wedler before a grand jury for indictment was not disclosed. Such a step would be necessary to bring him to trial in Ohio.

CORRIGAN SAID the Cleveland officers who saw Wedler last week and branded his story a hoax "obviously came down here with their minds made up."

His assistant, Fred Garmone, added that "The Cleveland police came down here to find out a few little things of no consequence and then went home."

Garmone said he was impressed by Wedler's location of a tree on

2 Men Named Carl Wise Find Much in Common

VAN WERT (AP)—Mr. and Mrs. Carl W. Wise and daughter of Milbank, S. D., were passing through Van Wert on a vacation trip. By chance, they noted the name of Carl E. Wise on a mailbox on the highway north of here.

The South Dakotans stayed overnight in Van Wert and went back to the Carl E. Wise home the next morning to compare notes. This is what they found:

1. Both Wise families attend a Calvary Evangelical United Brethren Church, many states apart.
2. Both Carls are Masons and both of their wives are officers in the Eastern Star.
3. Both Carl Wises had a grandfather in Pennsylvania and both grandfathers were named George Wise.
4. Both Carl Wise families have one daughter, and the birthday anniversaries of both daughters fall on July 12.

Senator George Said In 'Grave' Condition

VIENNA, Ga. (AP)—Walter F. George, President Eisenhower's special ambassador to NATO, is reported in "very very critical" condition from a coronary occlusion.

Dr. J. L. Malloy, the 79-year-old former senator's hometown physician for 25 years, said George "is getting progressively weaker. He is in no pain but the outlook for him is very grave."

WHAT YOU WANT - - IS IN WASHINGTON C. H.

Our Recreation Program - A Community Asset

Washington C. H. and this entire county has achieved an outstanding reputation for the excellence of its community recreational program established here this year available to the entire county.

It is being carried out on a larger scale than ever before attempted and has won the approval, not only of hundreds of youngsters and young people, but also of a like number of entire families.

Probably no other small city or county in this part of the state has a program as extensive or as well planned and as efficiently carried out. It is being recognized as a powerful aid in the elimination of any major juvenile delinquency threat in this general locality.

Washington Park, on which a lot of work has been done through help from many local sources, offers almost ideal facilities and those who have been responsible are deserving of the thanks and the praise of the entire community.

Official organizations such as the Recreation Commission, the City Council, the Fayette County Board of Commissioners, along with the help of service clubs, other organizations and dozens of individual volunteers have made this project a huge success.

A visit to the park site on Oakland Ave. will surprise those who have not seen it this summer season. Besides a shelter house which is usually filled with picnickers, other tables are spaced around the grounds. Several fireplaces are available. Also there is a completed basketball court which is used for well attended Friday night round and square dances, badminton courts, football and baseball fields, swings, sliding boards, merry-go-round, sandboxes and a wading pool for the tiny tots. Horseshoe pitching courts, volleyball

and even a model airplane flying ring are there.

The youth program under the direction of Fred Domenico, Washington Hi athletic director, is well organized with constant team and individual events in progress.

In addition to this city park, the Gardner Park site is also in use with tennis and shuffle-board courts available to those desiring them.

Most any evening, weather permitting, a visit to the city park will reveal many family picnics in progress, a group of young men playing a league basketball game, a family playing badminton, a group of girls playing volleyball, some youngsters and their fathers fishing in the creek, a Babe Ruth league baseball game underway, model airplane fans flying their small planes, even a football may be seen being kicked and passed by teenagers.

Domenico and his staff have worked hard to develop and supervise the many events and are worthy of the compliments they receive. If there is a lonesome boy or girl in this region it is not the fault of those who have aided toward this fine public project.

The Little League, Babe Ruth, and American Legion baseball teams are providing well supervised league play for nearly 400 youngsters in the city and county. There is also a girls' softball league in action.

All this demonstrates what can be accomplished with organized effort and interest on the part of the public.

It is to be hoped that this can continue season after season. The enthusiasm, the places and the equipment are available. We join in the general hope that what has been publicly demonstrated this season will keep progressing and improving. It can become a great community asset.

Milady's Hair -- Kelly Green

By Hal Boyle

NEW YORK (U)—Things a columnist might never know if he didn't open his mail:

That one out of every four American women changed the color of her hair within the last year . . . and milady now can tint her tresses kelly green if she chooses.

That Cuba's plush new Havana Riviera Club is giving psychiatric exams to all its chorus dancers and cigarette girls, but it will still hire the ones with the prettiest legs.

That the writhing plover of New Zealand is the only bird with a bill that is bent sideways.

That men of a native tribe in New Guinea wear a cone-shaped hat glued to their head as a symbol of manhood. They don't have to worry about losing their hats, just their heads.

That there is now about \$58 billion worth of gold in the world. It's nice to know things like this around the first of the month.

That 1,506 U. S. cities and towns with a total population of more than 31½ million now fluoridate their water supply to fight tooth decay. But this program still affects fewer than 20 per cent of the American people.

That one horsepower is equal to the muscle work of 22½ men.

That the Kiwanis magazine observes a dream house usually costs twice what you dreamed it would and the Eiffel Tower in Paris "looks like the Empire State building after taxes."

That surveys made in Japan and France's "wedded children born from cousin marriages are smaller and have a slightly high-

er death rate than those born to non-related parents.

That a Kentucky jury in 1899 fixed the price of a stolen kiss at \$700. It awarded this amount to a married lady kissed against her will (she said) by a neighbor.

That 90 per cent of American women now wear lipstick.

That the civilian labor force has grown at the rate of 1.2 per cent a year during the last quarter century, but total government employment has increased about 3.2 per cent annually. At this rate by the year 2069 we will all be working for the government. But aren't we now?

That it was Samuel Johnson who said, "Were it not for imagination a man would be as happy in the arms of a chambermaid as of a duchess."

The Constitutional Amendments

By George Sokolsky

I saw a headline in a newspaper which read, "Why Do Americans Fear Rights First Congress Nailed Down?"

This did not appear in the "Daily Worker" but in a very conservative publication. So I struggled to discover what the first Congress "Nailed Down"—apparently an enormous feat in carpentry.

What is undoubtedly referred to in this article are the first 10 amendments to the Constitution, namely the Bill of Rights, which is a collection of the rights of the individual that government may not impair, most of them emanating from English common law and the traditions of the colonies during the nearly 170 years of existence prior to the revolution.

These first 10 amendments were not "Nailed Down" by the first Congress or any other Congress engaged in such vulgarity, but were passed by the states as the Constitution provides.

What the writer of the headline in historic error refers to is the "resolution of the first Congress submitting 12 amendments to the Constitution," which was duly submitted to the states because several of them refused to adopt the Constitution otherwise. The preamble of this resolution makes it all clear:

"The conventions of a number of the states, having at the time of their adopting the Constitution, expressed a desire, in order to prevent misconstruction or abuse of its powers, that further declaratory and restrictive clauses should be added; and as extending the ground of public confidence in the government, will best insure the beneficent ends of its institution: . . ."

The matter was then referred to the states. The first two of these 12 amendments dealt with a clarification of the first article of the Constitution dealing with (1) how to elect a member of House of Representatives; and (2) preventing senators and representatives from raising their own salaries without an election for representatives intervening—a very good measure.

What we generally refer to as the First Amendment was actually the third and the famous Fifth was the seventh in the resolution. New York agreed to all but the Second amendment but Virginia agreed to the entire 12.

What is significant in this is it is the states and not Congress which amend the Constitution because sovereignty in this country is vested in each state and not in the federal government. The writer of this article asks:

"Are we, the proud and the strong, so terrified of internal subversion of the part of a legal if many political party, whose numbers probably do not exceed 50,000 persons, that we are willing to let civil liberties guaranteed to us by the Constitution be by default?"

The answer is, of course, very simply if one applies logic to public questions. Whose rights? For instance in the Jencks case, the Supreme Court tried to solve this problem as it related to FBI files which contain accumulations of material confidentially given by public-spirited citizens who have assisted the law-enforcement agencies.

While it is true that some of this information refers to Communist and other subversive cases, there is also considerable material relating to other crimes such as kidnapping, automobile

thefts, attempts to rob the government, etc.

Is it the right of a citizen who is charged with a crime to see the whole of the government's case against him in a criminal case? This is what lawyers call "liberal disclosure," but the question arises how liberal the disclosure has to be and whether ultimately the raw files of the FBI will have to be submitted to courts, many judges not knowing the difference between a raw file, which contains every scrap of rumor, gossip and fact that comes in, including unevaluated material, and a prepared brief which provides only carefully evaluated and processed material.

A judge recently fined an FBI agent \$1,000 for not giving the defendant a file in a criminal case which had nothing to do with communism or subversion.

Unfortunately, the 10 amendments to which we usually refer as the Bill of Rights do not apply to all persons who live in this country except such as enjoy extraterritoriality. The assumption is false that our rights to life, liberty and the pursuit of happiness are divisible in the sense that we can pick and choose which ones we prefer and for whom. Thus far Communists and subversives have been favored.

(Copy, 1950 King Features Syndicate, Inc.)

General Plans Tour Of 2 Guard Camps

COLUMBUS (U)—Gov. C. William O'Neill will travel to Fort Breckinridge, Ky., Saturday morning to review Ohio National Guard troops in summer training there.

On the following Monday he will review Ohio Guard units at Alpena, Mich.

Laff-A-Day

"You folks go in and look around . . . I'll wait here."

Chicago Experiment With Polio Vaccine

By HERMAN N. BUNDESEN, M.D.

ADMINISTERING thousands of doses of Salk anti-polio vaccine in one face of a constantly increasing number of infantile paralysis cases might be deemed a calculated risk. However, we felt the calculated risk was less than the risk involved in not making available the protection afforded by the Salk vaccine.

Polio Cases Soared

We knew that when we ordered mass inoculations last summer as Chicago's polio cases soared toward a near record incidence rate.

In fact, the Illinois Department of Public Health had issued a directive dated May 25, 1956, only about a month before our upsurge began, which stated: "Inoculations with poliomyelitis vaccine can be continued into the summer until there is an increased prevalence of the disease."

By the end of June we knew we had an "increased prevalence of the disease." We also knew that about the only weapon we had to combat it was the Salk vaccine. So we made preparations for mass inoculations.

Urged to Continue

On July 9 the state health department issued a second directive: "Because of the high rate of poliomyelitis this early in 1956, all physicians are urged to continue vaccinating as many children as possible."

Wholesale Cooperation

Everyone cooperated—doctors, nurses, hospitals, police, newspapers, radio, television, all the local authorities. The only people we had difficulty with were the parents of the youngsters who probably needed the vaccine most.

Understandably some of them were afraid that the vaccine would actually trigger an attack of polio.

Some of you parents may still be worried about this. This is one of the reasons I decided to make this report at this particular time, the peak of the polio season.

As doctors, we knew that certain preparations of pertussis, diphtheria and tetanus antigens might possibly "provoke" paralytic poliomyelitis, if given during the polio season. Some speculated that an injection in the arm might make that arm more susceptible to paralysis.

What Results?

What did a thorough study of our mass inoculation program show? Let me quote from a complete report which we recently wrote for The Journal of the American Medical Association: "Statistics gathered in this study indicate that there has been no provoking effect (triggering subsequent paralysis in the inoculated limb) by Salk vaccine even when given in the face of a rising incidence as experienced in Chicago."

That's what we told the doctors—and that's what I'm telling you. Yes, we knew that we were giving the vaccine amidst a rising polio rate. But we decided, after discussing the matter thoroughly with medical societies and organizations, that the risk to our people would be far greater if we did not offer them the protection of the vaccine.

The results of our inoculation program, I believe, proved us right.

QUESTION AND ANSWER

S. M.: Can a person have amebic infection of the liver?
Answer: Yes. This is often a very serious complication of amebic dysentery.

The ameba often travels from the blood stream to the liver and may form large abscesses which may even penetrate into the chest cavity.

You're Telling Me

By WILLIAM RITT

Actor Bud Abbott has broken up his comedy team with Lou Costello so as to devote full time to raising thoroughbreds. Bud will find, says Betcha Dollar Dennis, the race horse business is no laughing matter.

Weather Bureau says the first two weeks of August will be "above normal." That's new? August temperatures are ALWAYS above normal.

A Maryland man has been juggled for 1½ years for an armed robbery which netted seven cents. Those extra six months must be a sort of bonus.

A six-month-old Florida bulldog has developed a habit he simply can't break—he dearly loves to chew tobacco. Well, at

that, it's better than exercising his molars by chomping on some postman's underpinning.

A Harvard student has become leader of 20 million Moslems. That'll be a lot of people, next football season, rooting against Yale.

Front page news item tells of Britain's Prince Philip being tossed unhurt by a horse. Old timers can remember when that was a daily occurrence for ex-King Edward as Prince of Wales.

After looking over photos of some of those "Miss Universe" candidates, we understand how the contest got that name. Quite a few of 'em have figures that are right out of this world.

The Nation Today

James Marlow

WASHINGTON (U)—If there is a London explosion it will be the disarmament talks blowing up.

The United States and Russia—while their representatives in London have talked about disarmament five months—have been building up their armaments.

This, at least, is a tribute to their suspicion of each other.

It is against this background of suspicion—and getting ready, just in case—that the talks have been held, along with Britain, France and Canada.

It hardly makes for optimism about the outcome of the talks. There isn't much.

Now Secretary of State Dulles has gone to London for a personal look although Harold Stassen, the American representative, has been keeping this government informed. Dulles made the trip on orders from President Eisenhower.

Officials here said Dulles will decide whether to continue the talks or call them off.

If for no other reason than world opinion, Dulles may want the talks to go on so long as the Russians are willing to talk or listen.

In the end, therefore, the talks may wind up in a whisper.

Stassen hasn't actually been talking about any major disarmament of this country. In a speech last week Dulles made it plain this country would keep its nuclear weapons.

Stassen has been talking about early first steps to build up some mutual trust like a suspension of nuclear tests and aerial and ground inspections.

Dulles last week even talked about opening the entire conti-

nental United States to inspection if the Russians would do the same with Russia.

This is going pretty far. And it would be a long way off in the future. And when Dulles said that, he didn't know whether Congress would ever approve of a plan like that.

Any agreement with Russia—such as another Dulles proposal on starting off with inspection limited to the Arctic Circle—would be thoroughly examined by Congress.

And Congress won't be able to do a thorough job until it returns in 1958. So any agreement could hardly go into effect before sometime next year.

But Dulles—just as Stassen before him—made proposals so hedged around with conditions that the Russians may say no anyway.

For example: There could be a 10-month suspension of nuclear weapons testing. But this was tied in with agreement on an inspection system which would have to be in business before the end of the 10 months.

But the Russians have proposed an immediate and unconditional end to nuclear weapons testing for two or three years and an agreement to outlaw the use of nuclear weapons.

The United States, to prevent big surprise attacks by either big power, wants aerial and ground inspection. Russia has accepted the principle of aerial and ground inspection.

But Russia isn't clear on what kind of ground inspection. Perhaps inspectors frozen in one spot. After five months of talk the London fog is still thick.

Our Recreation Program - A Community Asset

Washington C. H. and this entire county has achieved an outstanding reputation for the excellence of its community recreational program established here this year available to the entire county.

It is being carried out on a larger scale than ever before attempted and has won the approval, not only of hundreds of youngsters and young people, but also of a like number of entire families.

Probably no other small city or county in this part of the state has a program as extensive or as well planned and as efficiently carried out. It is being recognized as a powerful aid in the elimination of any major juvenile delinquency threat in this general locality.

Washington Park, on which a lot of work has been done through help from many local sources, offers almost ideal facilities and those who have been responsible are deserving of the thanks and the praise of the entire community.

Official organizations such as the Recreation Commission, the City Council, the Fayette County Board of Commissioners, along with the help of service clubs, other organizations and dozens of individual volunteers have made this project a huge success.

A visit to the park site on Oakland Ave. will surprise those who have not seen it this summer season. Besides a shelter house which is usually filled with picnickers, other tables are spaced around the grounds. Several fireplaces are available. Also there is a completed basketball court which is used for well attended Friday night round and square dances, badminton courts, football and baseball fields, swings, sliding boards, merry-go-round, sandboxes and a wading pool for the tiny tots. Horseshoe pitching courts, volleyball

and even a model airplane flying ring are there.

The youth program under the direction of Fred Domenico, Washington's athletic director, is well organized with constant team and individual events in progress.

In addition to this city park, the Gardner Park site is also in use with tennis and shuffle-board courts available to those desiring them.

Most any evening, weather permitting, a visit to the city park will reveal many family picnics in progress, a group of young men playing a league basketball game, a family playing badminton, a group of girls playing volleyball, some youngsters and their fathers fishing in the creek, a Babe Ruth league baseball game underway, model airplane fans flying their small planes, even a football may be seen being kicked and passed by teen-agers.

Domenico and his staff have worked hard to develop and supervise the many events and are worthy of the compliments they receive. If there is a lonesome boy or girl in this region it is not the fault of those who have aided toward this fine public project.

The Little League, Babe Ruth, and American Legion baseball teams are providing well supervised league play for nearly 400 youngsters in the city and county. There is also a girls' softball league in action.

All this demonstrates what can be accomplished with organized effort and interest on the part of the public.

It is to be hoped that this can continue season after season. The enthusiasm, the places and the equipment are available. We join in the general hope that what has been publicly demonstrated this season will keep progressing and improving. It can become a great community asset.

Milady's Hair -- Kelly Green

By Hal Boyle

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

That one out of every four American women changed the color of her hair within the last year . . . and milady now can tint her tresses kelly green if she chooses.

That Cuba's plush new Havana Riviera Club is giving psychiatric exams to all its chorus dancers and cigarette girls, but it will still hire the ones with the prettiest legs.

That the wrybilled plover of New Zealand is the only bird with a bill that is bent sideways.

That men of a native tribe in New Guinea wear a cone-shaped hat glued to their head as a symbol of manhood. They don't have to worry about losing their hats, just their heads.

That there is now about \$58 billion worth of gold in the world. It's nice to know things like this around the first of the month.

That 1,506 U. S. cities and towns with a total population of more than 31½ million now fluoridate their water supply to fight tooth decay. But this program still affects fewer than 20 per cent of the American people.

That one horsepower is equal to the muscle work of 2½ men. That the Kiwanis magazine observes a dream house usually costs twice what you dreamed it would and the Eiffel Tower in Paris "looks like the Empire State building after taxes."

That surveys made in Japan and France showed children born from cousin marriages are smaller and have a slightly higher

death rate than those born to non-related parents.

That a Kentucky jury in 1899 fixed the price of a stolen kiss at \$700. It awarded this amount to a married lady kissed against her will (she said) by a neighbor.

That 90 per cent of American women now wear lipstick.

That the civilian labor force has grown at the rate of 1.2 per cent a year during the last quarter century, but total government employment has increased about 3.2 per cent annually. At this rate by the year 2069 we will all be working for the government. But aren't we now?

That it was Samuel Johnson who said, "Were it not for imagination a man would be as happy in the arms of a chambermaid as of a duchess."

The Constitutional Amendments

By George Sokolsky

I saw a headline in a newspaper which read, "Why Do Americans Fear Rights First Congress Nailed Down?"

This did not appear in the "Daily Worker" but in a very conservative publication. So I struggled to discover what the first Congress "Nailed Down"—apparently an enormous feat in carpentry.

What is undoubtedly referred to in this article are the first 10 amendments to the Constitution, namely the Bill of Rights, which is a collection of the rights of the individual that government may not impair, most of them emanating from English common law and the traditions of the colonies during the nearly 170 years of existence prior to the revolution.

These first 10 amendments were not "nailed down" by the first Congress or any other Congress engaged in such vulgarity, but were passed by the states as the Constitution provides.

What the writer of the headline in historic error refers to is the "resolution of the first Congress submitting 12 amendments to the Constitution," which was duly submitted to the states because several of them refused to adopt the Constitution otherwise. The preamble of this resolution makes it all clear:

"The conventions of a number of the states, having at the time of their adopting the Constitution, expressed a desire, in order to prevent misconstruction or abuse of its powers, that further declaratory and restrictive clauses should be added; and as extending the ground of public confidence in the government, will best insure the beneficent ends of its institution: . . ."

The matter was then referred to the states. The first two of these 12 amendments dealt with a clarification of the first article of the Constitution dealing with (1) how to elect a member of House of Representatives; and (2) preventing senators and representatives from raising their own salaries without an election for representatives intervening—a very good measure.

What we generally refer to as the First Amendment was actually the third and the famous Fifth was the seventh in the resolution. New York agreed to all but the Second amendment, but Virginia agreed to the entire 12.

What is significant in this is it is the states and not Congress which amend the Constitution because sovereignty in this country is vested in each state and not in the federal government. The writer of this article asks:

"Are we, the proud and the strong, so terrified of internal subversion on the part of a legal if many political party, whose numbers probably do not exceed 50,000 persons, that we are willing to let civil liberties guaranteed to us by the Constitution be by default?"

The answer is, of course, very simply if one applies logic to public questions. Whose rights? For instance in the Jencks case, the Supreme Court tried to solve this problem as it related to FBI files which contain accumulations of material confidentially given by public-spirited citizens who have assisted the law-enforcement agencies.

While it is true that some of this information refers to Communist and other subversive cases, there is also considerable material relating to other crimes such as kidnapping, automobile

thefts, attempts to rob the government, etc.

Is it the right of a citizen who is charged with a crime to see the whole of the government's case against him in a criminal case? This is what lawyers call "liberal disclosure," but the question arises how liberal the disclosure has to be and whether ultimately the raw files of the FBI will have to be submitted to courts, many judges not knowing the difference between a raw file, which contains every scrap of rumor, gossip and fact that comes in, including unevaluated material, and a prepared brief which provides only carefully evaluated and processed material.

A judge recently fined an FBI agent \$1,000 for not giving the defendant a file in a criminal case which had nothing to do with communism or subversion.

Unfortunately, the 10 amendments to which we usually refer as the Bill of Rights do not apply to all persons who live in this country except such as enjoy extraterritoriality. The assumption is false that our rights to life, liberty and the pursuit of happiness are divisible in the sense that we can pick and choose which ones we prefer and for whom. Thus far Communists and subversives have been favored.

(Copy: The 1950 King Features Syndicate, Inc.)

Governor Plans Tour Of 2 Guard Camps

COLUMBUS (AP)—Gov. C. William O'Neill will travel to Fort Breckenridge, Ky., Saturday morning to review Ohio National Guard troops in summer training there.

On the following Monday he will review Ohio Guard units at Alpena, Mich.

"You folks go in and look around . . . I'll wait here."

Chicago Experiment With Polio Vaccine

By HERMAN N. BUNDESEN, M.D.

ADMINISTERING thousands of doses of Salk anti-polio vaccine in one of a constantly increasing number of infantile paralysis cases might be deemed a calculated risk. However, we felt the calculated risk was less than the risk involved in not making available the protection afforded by the Salk vaccine.

Polio Cases Soared

We knew that when we ordered mass inoculations last summer as Chicago's polio cases soared toward a near record incidence rate.

In fact, the Illinois Department of Public Health had issued a directive dated May 25, 1956, only about a month before our upsurge began, which stated: "Inoculations with poliomyelitis vaccine can be continued into this summer until there is an increased prevalence of the disease."

By the end of June we knew we had an "increased prevalence of the disease." We also knew that about the only weapon we had to combat it was the Salk vaccine. So we made preparations for mass inoculations.

Urged to Continue

On July 9 the state health department issued a second directive: "Because of the high rate of poliomyelitis this early in 1956, all physicians are urged to continue vaccinating as many children as possible."

And vaccinate them we did.

Wholesale Cooperation

Everyone cooperated—doctors, nurses, hospitals, police, newspapers, radio, television, all the local authorities. The only people we had difficulty with were the parents of the youngsters who probably needed the vaccine most.

Understandably some of them were afraid that the vaccine would actually trigger an attack of polio.

Some of you parents may still be worried about this. This is one of the reasons I decided to make this report at this particular time, the peak of the polio season.

As doctors, we knew that certain preparations of pertussis, diphtheria and tetanus antigens might possibly "provoke" paralytic poliomyelitis. If given during the polio season. Some speculated that an injection in the arm might make that arm more susceptible to paralysis.

What Results?

What did a thorough study of our mass inoculation program show? Let me quote from a complete report which we recently wrote for The Journal of the American Medical Association: "Statistics gathered in this study indicate that there has been no provoking effect (triggering subsequent paralysis in the inoculated limb) by Salk vaccine even when given in the face of a rising incidence as experienced in Chicago."

That's what we told the doctors—and that's what I'm telling you.

Yes, we knew that we were giving the vaccine amidst a rising polio rate. But we decided, after discussing the matter thoroughly with medical societies and organizations, that the risk to our people would be far greater if we did not offer them the protection of the vaccine.

The results of our inoculation program, I believe, proved us right.

QUESTION AND ANSWER

S. M.: Can a person have amebic infection of the liver?

Answer: Yes. This is often a very serious complication of amebic dysentery.

The ameba often travels from the blood stream to the liver and may form large abscesses which may even penetrate into the chest cavity.

You're Telling Me

By WILLIAM RITT

Actor Bud Abbott has broken up his comedy team with Lou Costello so as to devote full time to raising thoroughbreds. Bud will find, says Betcha Dollar Dennis, the race horse business is no laughing matter.

Weather Bureau says the first two weeks of August will be "above normal." That's new? August temperatures are ALWAYS above normal.

A Maryland man has been judged for 7½ years for an armed robbery which netted seven cents. Those extra six months must be a sort of bonus.

A six-month-old Florida bulldog has developed a habit he simply can't break—he dearly loves to chew tobacco. Well, at

that, it's better than exercising his molars by chomping on some postman's underpinning.

A Harvard student has become leader of 20 million Moslems. That'll be a lot of people, next to a ball season, rooting against Yale.

Front page news item tells of Britain's Prince Philip being tossed unhurt by a horse. Old timers can remember when that was a daily occurrence for ex-King Edward as Prince of Wales.

After looking over photos of some of those "Miss Universe" candidates, we understand how the contest got that name. Quite a few of 'em have figures that are right out of this world.

The Nation Today

WASHINGTON (AP)—If there is a London explosion it will be the disarmament talks blowing up.

The United States and Russia—while their representatives in London have talked about disarmament five months—have been building up their armaments.

This, at least, is a tribute to their suspicion of each other.

It is against this background of suspicion—and getting ready, just in case—that the talks have been held, along with Britain, France and Canada.

It hardly makes for optimism about the outcome of the talks. There isn't much.

Now Secretary of State Dulles has gone to London for a personal look although Harold Stassen, the American representative, has been keeping this government informed. Dulles made the trip on orders from President Eisenhower.

Officials here said Dulles will decide whether to continue the talks or call them off.

If for no other reason than world opinion, Dulles may want the talks to go on so long as the Russians are willing to talk or listen.

In the end, therefore, the talks may wind up in a whisper. Stassen hasn't actually been talking about any major disarmament of this country. In a speech last week Dulles made it plain this country would keep its nuclear weapons.

Stassen has been talking about early first steps to build up some mutual trust like a suspension of nuclear tests and aerial and ground inspections.

Dulles last week even talked about opening the entire conti-

mental United States to inspection if the Russians would do the same with Russia.

This is going pretty far. And it would be a long way off in the future. And when Dulles said that, he didn't know whether Congress would ever approve of a plan like that.

Any agreement with Russia—such as another Dulles proposal on starting off with inspection limited to the Arctic Circle—would be thoroughly examined by Congress.

And Congress won't be able to do a thorough job until it returns in 1958. So any agreement could hardly go into effect before sometime next year.

But Dulles—just as Stassen before him—made proposals so hedged around with conditions that the Russians may say no anyway.

For example: There could be a 10-month suspension of nuclear weapons testing. But this was tied in with agreement on an inspection system which would have to be in business before the end of the 10 months.

But the Russians have proposed an immediate and unconditional end to nuclear weapons testing for two or three years and an agreement to outlaw the use of nuclear weapons.

The United States, to prevent big surprise attacks by either big power, wants aerial and ground inspection. Russia has accepted the principle of aerial and ground inspection.

But Russia isn't clear on what kind of ground inspection. Perhaps inspectors frozen in one spot.

After five months of talk the London fog is still thick.

Young Tycoons Pay Attention To Their Dress

Youthful Executives Report Owning Average Of 14 Suits Each

By SAM DAWSON
NEW YORK (AP)—The young men who got to the top in a hurry seem to be a dressy lot. A peek at their wardrobes finds them much better stocked than the average among their employes—or you either, perhaps.

Replies from 140 of the young presidents of American corporations also suggest that they took time enough on their way to shop for clothes and that they still match the articles carefully before setting off each morning for the executive suite.

The survey was conducted by the American Institute of Men's and Boys' Wear to see if the young (or maybe slightly middle age) top executive was doing right by the apparel industry.

Asked now many suits each owned, the youthful bosses gave a range of 60 to 3, with the average coming out at 14.3 per man.

They but three or four suits a year, usually in the spring and fall, but occasionally in between as needed.

The shirt supply ranges from 100 to 10, averaging 29 per man—with 23 of the shirts plain and 6 fancy.

The younger president is well stocked with socks. One man says he has 100 pairs. The average has 30, with 22 of them in solid colors and 8 patterned.

He gets along with 10 pairs of shoes (although 1 has 21) and with 4 hats (with 1 having 16). One man has 200 neckties on his rack. The average is 65. But one executive finds 12 enough.

Mostly the top man makes do with 2 overcoats, 2 topcoats and 1.5 raincoats.

The corporate presidents own on average 3.8 sports coats, with the top number 15, and figure that one fourth of their entire wardrobe is in the sports category. The majority never wear sports clothes to business, although 14 of them do regularly, and a few others do occasionally.

Three fourths of them think a chest pocket handkerchief a must for proper dress. The majority own a tuxedo.

One man has 50 sets of links and studs to choose from. On average they own 7 sets of male jewelry.

One president makes do with just 1 pair of pajamas—another needs 20—and the average is 5.8 pairs. Two dressing gowns are average, with 8 the top figure.

Final note: the survey doesn't reveal a newspaper executive among the 140 replying.

Springfield Probe Of Dispute Seen

SPRINGFIELD (AP)—City commissioners are expected to order an investigation into a dispute between the contractor's licensing board and the Cussins & Fearn Co. store here.

The dispute arose over the Columbus firm's efforts to obtain a license to install furnaces in Springfield Paul Brown, manager of the local store, charged that Harold A. Cook, chief building inspector, had threatened the store management with "pressure" if publicity about the dispute is not halted. Local newspapers have been carrying detailed accounts of the dispute.

Unexpired Term Due To Be Filled by Poll

COLUMBUS (AP)—Gov. C. William O'Neill says that the unexpired term of state school board member Joseph D. Stecher of Toledo will be filled by election in November. The term ends Dec. 31, 1959.

Stecher resigned earlier this month to accept appointment as executive director of the American Bar Assn.

People . . . Places . . . and Things

Round about Fayette County

By B. E. KELLEY
The B&O Railroad is adding 93 more diesel engines to its equipment, and 57 of these have been delivered this year. Thirty-six more will be ready for use sometime in August.

This will bring to 1,118 the number of diesel engines in operation on the B&O, of which 648 are freight units, 393 are switch units and 103 passenger units.

Some of the new units will be placed in operation on the Newark Division and will operate through this city.

Until atomic - powered or coal-powered gas turbine locomotives take their place, the diesels will continue in use due to their high-speed, smooth operating and money-saving qualities.

B&O officials estimate that a diesel unit saves enough in four years to pay for its cost, and that it is good, sound business to dieselize the entire road, which is being rapidly done. Within a few years no steam locomotives will be in use on the B&O.

PEACOCK KILLED

Recently a valuable peacock owned by Mr. and Mrs. Willard Bitzer, CCC Highway east, escaped from its pen and wandered out on the highway where it was struck and killed by a passing automobile.

The bird had some exceptionally beautiful plumage, and so far as known, is the first male bird of its kind ever killed by a car in the county.

Peacocks, or peafowls, are natives of the East Indies and southeastern Asia, and have long been grown in America for the beautiful plumage of the male birds.

NIGHTHAWKS HERE

Two or three pairs of nighthawks, sometimes called "bullbats" are again nesting on the composition roofs of some of the tallest buildings in the uptown district. They are rarely seen except at night when they fly about, feeding on the wing.

The nighthawk is related to the whippoorwill which it resembles.

They are about the size of a red-wing blackbird, black, brown and ochreous with white on wings and throat. The male also has white on his tail.

One of the characteristics of the birds is diving suddenly from a considerable height while feeding, spreading their wings and tail to retard their dive, and making a noise which can be heard for some distance.

Usually their makeshift nests, among the gravel on the composition roofs, contain two to four mottled eggs.

I have know of the presence of the nighthawks and their nests on building roofs here for at least 25 years.

GIANT BEAVERS IN OHIO

Recent finding a part of the skull of a giant beaver (an animal weighing up to 500 pounds), while excavating a swampy area on Cleveland Ave., Columbus, is attracting considerable attention.

The common beavers formerly were abundant in Ohio, including Fayette County, and they built plenty of dams across Fayette streams before they were trapped and shot by Indians and white men. The giant beaver also thrived in Fayette County.

It is the third specimen of bones from the giant beaver which has reached the state museum over a

period of nearly three quarters of a century.

Two other giant beaver bones were found in the peat deposit, as well as some pieces of wood bearing tooth marks of the big animal.

It will be possible to date the gnawed pieces of wood by the radiocarbon process, and it will be possible to determine the kinds of plants that went to form the peat.

WESTERN UNION "EARS"

Ten years or more ago announcement was made that the Western Union Telegraph Co. planned to extend its radar system through Fayette County, by erecting tall steel structures equipped with "ears" to relay messages much faster than the old wire system.

Now such a line of "ears" is being erected between Pittsburgh and Chicago, and one of the sets of "stills with ears" has been erected in Warren County.

It was originally planned to have such a station located at the intersection of Route 38 and Danville Rd., just north of Bloomingburg, but this never materialized, due to a change in plans and the type of construction of the stations.

Korea Bonus Vets Limited on Appeal

COLUMBUS (AP)—Korean conflict veterans from Ohio desiring a review of their bonus payments must request such a review within 60 days from the date their checks are received, Bonus Director Chester W. Goble says.

Goble added that a request for a review need not delay cashing bonus checks as cashing will not prejudice any right for a re-examination.

The director said all bonus checks are for the full amount due veterans or their next of kin as calculated by the state, unless the check is accompanied by a statement from the bonus director indicating otherwise.

Bryan, Toledo Firms Get Pacts

TOLEDO (AP)—The Department of Commerce has awarded government contracts to Willys Motors, Inc., here and Aro Equipment Corp. of Bryan.

Aro Equipment received an \$84,532 order from Brookley Air Force Base in Alabama for oxygen gauges.

Willys received an \$88,638 order for spare parts and a \$50,755 order for truck top assemblies from the Cleveland Ordnance District, a \$41,045 contract for deep water fording kits from the Ordnance tank - automotive command in Detroit, and a \$13,799 order for six trucks from the general services administration.

Indiana Cops Keep Eye on Gypsy Bands

LAGRANGE, Ind. (AP)—The sheriff's office kept an eye today on Gypsy bands, chased out of Michigan last week and offering some promise of moving on soon.

The chief of one band, who calls himself Groffo, said his group consists of migrant workers, working their way east to a Gypsy convention at Canton, Ohio. His band was camped today at a restaurant at the edge of Lagrange on U.S. 20.

Another group, traveling in seven or eight house trailers, rented a closed drive-in restaurant near Wabash, Ind., 75 miles southwest of here, and told Sheriff Paul Benson of Wabash County they plan to move on toward South Carolina in four or five days.

Benson said he won't disturb the band unless he receives complaints.

Sheriff Myron Welker of Lagrange County chased one group out of a rest camp beside Ind. near Lagrange but "couldn't do anything" about a group that rented trailer space at a trailer court at Brighton. However, part of the Brighton band Sunday voluntarily moved three miles south of Mongo, Ind.

About 100 Gypsies arrived in Lagrange County Saturday after being chased out of a succession of southern Michigan counties. After they crossed into Indiana, Sheriff Harry Dirrim of Steuben County shooed them west into Lagrange County.

Another group has been renting trailer space for two weeks at Hoot Owl Inn near Lagrange.

Boat Hook Arch Given Newlyweds

VIRGINIA BEACH, Va. (AP)—They had a traditional military wedding at nearby Fort Story Monday with one important variation.

The bride and groom left the church under an arch of crossed boat hooks—not swords.

Edged weapons are scarce at an Army Transportation Corps post. But boat hooks are essential around the Army's amphibious ducks.

The newlyweds, Pvt. Dennis H. Fellbaum and the former Miss Sandra Zimmerman, both are from Marathon, Wis.

He's 3 Years Late Paying City Debt

MIAMI, Fla. (AP)—Fred J. Bonneau of Bristol, Conn., is not a man who forgets his obligations.

The Miami Traffic Fines Bureau Monday received a letter from Bonneau containing a \$2 postal money order for a parking citation he received on Feb. 15, 1954.

Bonneau wrote in part: "So sorry to have put you to all this trouble. I had the money in an envelope all this time, but never got around to mailing it."

Fined \$5, Costs

Eldon Newland, 25, of 401 Sixth St., was fined \$5 and costs in Municipal Court Monday when he pleaded not guilty to a charge of disorderly conduct. Judge Max G. Dice suspended the fine on condition Newland stay away from his wife, Christine, the complaining witness, pending her action for divorce.

Gibson Takes New Post with Economy Loan

Appointment of Donald J. Gibson, 1341 Washington Ave., as special district representative of the investment branch of the Economy Savings and Loan Co. and assignment of Charles W. Garrison as acting manager of Economy's Washington C. H. office has been announced here.

Gibson, who has managed the local office for 13 years, will continue to make his home in Washington C. H. He will work out of the district office in Columbus, and his territory will include 25 offices in Southern Ohio.

Garrison comes here from Economy's Springfield office where he has been assistant manager. Unmarried, he will live at 410 East St.

The new acting manager started with the firm in Indianapolis and also worked in Dayton.

Economy's local office, at 11 N. Fayette St., has been extensively remodeled, and air-conditioning has been installed. Still to be completed is the construction of private office space at the rear of the main room.

Brandenburg Named Area NADA Chairman

Young Tycoons Pay Attention To Their Dress

Youthful Executives Report Owning Average Of 14 Suits Each

By SAM DAWSON
NEW YORK (AP)—The young men who got to the top in a hurry seem to be a dressy lot. A peek at their wardrobes finds them much better stocked than the average among their employes—or you either, perhaps.

Replies from 140 of the young presidents of American corporations also suggest that they took time enough on their way to shop for clothes and that they still match the articles carefully before setting off each morning for the executive suite.

The survey was conducted by the American Institute of Men's and Boys' Wear to see if the young (or maybe slightly middle age) top executive was doing right by the apparel industry.

Asked how many suits each owned, the youthful bosses gave a range of 60 to 3, with the average coming out at 14.3 per man.

They but three or four suits a year, usually in the spring and fall, but occasionally in between as needed.

The shirt supply ranges from 100 to 10, averaging 29 per man—with 23 of the shirts plain and 6 fancy.

The younger president is well stocked with socks. One man says he has 100 pairs. The average has 30, with 22 of them in solid colors and 8 patterned.

He gets along with 10 pairs of shoes (although 1 has 21) and with 4 hats (with 1 having 16).

One man has 200 neckties on his rack. The average is 65. But one executive finds 12 enough.

Mostly the top man makes do with 2 overcoats, 2 topcoats and 1.5 raincoats.

The corporate presidents own on average 3.8 sports coats, with the top number 15, and figure that one fourth of their entire wardrobe is in the sports category. The majority never wear sports clothes to business, although 14 of them do regularly, and a few others do occasionally.

Three fourths of them think a chest pocket handkerchief a must for proper dress. The majority own a tuxedo.

One man has 50 sets of links and studs to choose from. On average they own 7 sets of male jewelry.

One president makes do with just 1 pair of pajamas—another needs 20—and the average is 5.8 pairs. Two dressing gowns are average, with 8 the top figure.

Final note: the survey doesn't reveal a newspaper executive among the 140 replying.

Springfield Probe Of Dispute Seen

SPRINGFIELD (AP)—City commissioners are expected to order an investigation into a dispute between the contractor's licensing board and the Cussins & Fearn Co. store here.

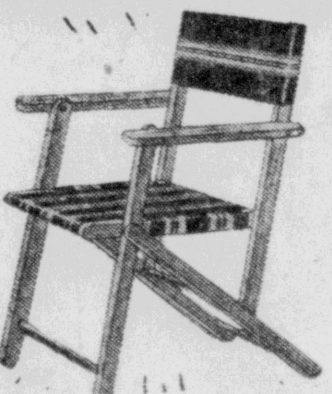

The dispute arose over the Columbus firm's efforts to obtain a license to install furnaces in Springfield. Paul Brown, manager of the local store, charged that Harold A. Cook, chief building inspector, had threatened the store management with "pressure" if publicity about the dispute is not halted. Local newspapers have been carrying detailed accounts of the dispute.

Unexpired Term Due To Be Filled by Poll

COLUMBUS (AP)—Gov. C. William O'Neill says that the unexpired term of state school board member Joseph D. Stecher of Toledo will be filled by election in November. The term ends Dec. 31, 1959.

Stecher resigned earlier this month to accept appointment as executive director of the American Bar Assn.

CUSSINS & FEARN CO.

People . . . Places . . . and Things

Round about Fayette County

By B. E. KELLEY
The B&O Railroad is adding 93 more diesel engines to its equipment, and 57 of these have been delivered this year. Thirty-six more will be ready for use sometime in August.

This will bring to 1,118 the number of diesel engines in operation on the B&O, of which 648 are freight units, 393 are switch units and 103 passenger units.

Some of the new units will be placed in operation on the Newark Division and will operate through this city.

Until atomic - powered or coal-powered gas turbine locomotives take their place, the diesels will continue in use due to their high-speed, smooth operating and money-saving qualities.

B&O officials estimate that a diesel unit saves enough in four years to pay for its cost, and that it is good, sound business to dieselize the entire road, which is being rapidly done. Within a few years no steam locomotives will be in use on the B&O.

PEACOCK KILLED

Recently a valuable peacock owned by Mr. and Mrs. Willard Bitzer, CCC Highway east, escaped from its pen and wandered out on the highway where it was struck and killed by a passing automobile.

The bird had some exceptionally beautiful plumage, and so far as known, is the first male bird of its kind ever killed by a car in the county.

Peacocks, or peafowls, are natives of the East Indies and southeastern Asia, and have long been grown in America for the beautiful plumage of the male birds.

NIGHTHAWKS HERE

Two or three pairs of nighthawks, sometimes called "bullbats" are again nesting on the composition roofs of some of the tallest buildings in the uptown district. They are rarely seen except at night when they fly about, feeding on the wing.

The nighthawk is related to the whippoorwill which it resembles.

They are about the size of a red-wing blackbird, black, brown and ochreous with white on wings and throat. The male also has white on his tail.

One of the characteristics of the birds is diving suddenly from a considerable height while feeding, spreading their wings and tail to retard their dive, and making a noise which can be heard for some distance.

Usually their makeshift nests, among the gravel on the composition roofs, contain two to four mottled eggs.

I have known of the presence of the nighthawks and their nests on building roofs here for at least 25 years.

GIANT BEAVERS IN OHIO

Recent finding a part of the skull of a giant beaver (an animal weighing up to 500 pounds), while excavating a swampy area on Cleveland Ave., Columbus, is attracting considerable attention.

The common beavers formerly were abundant in Ohio, including Fayette County, and they built plenty of dams across Fayette streams before they were trapped and shot by Indians and white men. The giant beaver also thrived in Fayette County.

It is the third specimen of bones from the giant beaver which has reached the state museum over a

period of nearly three quarters of a century.

Two other giant beaver bones were found in the peat deposit, as well as some pieces of wood bearing tooth marks of the big animal.

It will be possible to date the gnawed pieces of wood by the radiocarbon process, and it will be possible to determine the kinds of plants that went to form the peat.

WESTERN UNION "EARS"

Ten years or more ago announcement was made that the Western Union Telegraph Co. planned to extend its radar system through Fayette County, by erecting tall steel structures equipped with "ears" to relay messages much faster than the old wire system.

Now such a line of "ears" is being erected between Pittsburgh and Chicago, and one of the sets of "stills with ears" has been erected in Warren County.

It was originally planned to have such a station located at the intersection of Route 38 and Danville Rd., just north of Bloomingburg, but this never materialized, due to a change in plans and the type of construction of the stations.

Korea Bonus Vets Limited on Appeal

COLUMBUS (AP)—Korean conflict veterans from Ohio desiring a review of their bonus payments must request such a review within 60 days from the date their checks are received, Bonus Director Chester W. Goble says.

Goble added that a request for a review need not delay cashing bonus checks as cashing will not prejudice any right for a re-examination.

The director said all bonus checks are for the full amount due veterans or their next of kin as calculated by the state, unless the check is accompanied by a statement from the bonus director indicating otherwise.

Bryan, Toledo Firms Get Pacts

TOLEDO (AP)—The Department of Commerce has awarded government contracts to Willys Motors, Inc., here and Aro Equipment Corp. of Bryan.

Aro Equipment received an \$84,532 order from Brooklyn Air Force Base in Alabama for oxygen gauges.

Willys received an \$88,638 order for spare parts and a \$50,755 order for truck top assemblies from the Cleveland Ordnance District, a \$41,045 contract for deep water fording kits from the Ordnance Tank - Automotive Command in Detroit; and a \$13,799 order for six trucks from the general services administration.

Worry of FALSE TEETH Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug counter.

Indiana Cops Keep Eye on Gypsy Bands

LAGRANGE, Ind. (AP)—The sheriff's office kept an eye today on Gypsy bands, chased out of Michigan last week and offering some promise of moving on soon.

The chief of one band, who calls himself Groffo, said his group consists of migrant workers, working their way east to a Gypsy convention at Canton, Ohio. His band was camped today at a restaurant at the edge of Lagrange on U.S. 20.

Another group, traveling in seven or eight house trailers, rented a closed drive-in restaurant near Wabash, Ind., 75 miles southwest of here, and told Sheriff Paul Benson of Wabash County they plan to move on toward South Carolina in four or five days.

Benson said he won't disturb the band unless he receives complaints.

Sheriff Myron Welker of Lagrange County chased one group out of a rest camp beside Indiana near Lagrange but "couldn't do anything" about a group that rented trailer space at a trailer court at Brighton. However, part of the Brighton band Sunday voluntarily moved three miles south of Mongo, Ind.

About 100 Gypsies arrived in Lagrange County Saturday after being chased out of a succession of southern Michigan counties. After they crossed into Indiana, Sheriff Harry Dirrim of Steuben County shooed them west into Lagrange County.

Another group has been renting trailer space for two weeks at Hoot Owl Inn near Lagrange.

Boat Hook Arch Given Newlyweds

VIRGINIA BEACH, Va. (AP)—They had a traditional military wedding at nearby Fort Story Monday with one important variation.

The bride and groom left the church under an arch of crossed boat hooks—not swords.

Edged weapons are scarce at an Army Transportation Corps post. But boat hooks are essential around the Army's amphibious ducks.

The newlyweds, Pvt. Dennis H. Fellbaum and the former Miss Sandra Zimmerman, both are from Marathon, Wis.

He's 3 Years Late Paying City Debt

MIAMI, Fla. (AP)—Fred J. Bonneau of Bristol, Conn., is not a man who forgets his obligations.

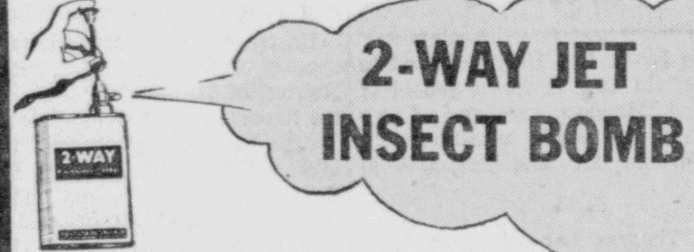

The Miami Traffic Fines Bureau Monday received a letter from Bonneau containing a \$2 postal money order for a parking citation he received on Feb. 15, 1954.

Bonneau wrote in part: "So sorry to have put you to all this trouble. I had the money in an envelope all this time, but never got around to mailing it."

Fined \$5, Costs

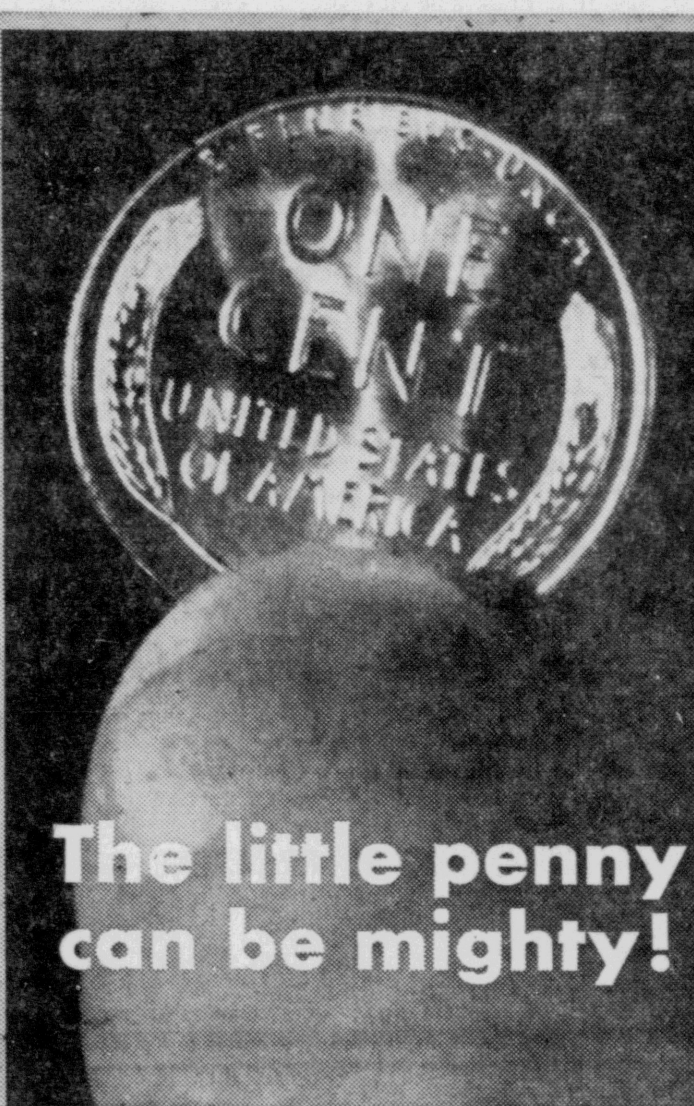

Eldon Newland, 25, of 401 Sixth St., was fined \$5 and costs in Municipal Court Monday when he pleaded not guilty to a charge of disorderly conduct. Judge Max G. Dice suspended the fine on condition Newland stay away from his wife, Christine, the complaining witness, pending her action for divorce.

Lieut. Provost Is Promoted

Second Lieut. Robert E. Provost of Company M, Fayette County's National Guard unit, was made first lieutenant while at Ft. Benning, Ga., where he went through officers' basic infantry school.

Few others besides Capt. Charles Wimer, company commander, now outrank him.

Sergeant First Class Daryl E. Hamley has been promoted to master sergeant. It was announced at the same time. The promotion is effective Aug. 5.

Three new enlistments by Company M are:

Ronnie E. Knisley, 834 Lincoln Dr., a 1957 Washington C. H. High School graduate, who reports for six months' active duty training Sept. 8;

Paul E. Cox, of 724 Sycamore St., another 1957 WHS graduate who will report for active duty training at the same time.

Darrell J. Steen, Wilmington College graduate now teaching commercial subjects in South Solon High School. He left for six months' active duty training July 23.

Mike Todd Says Actress Wife OK

NEW YORK (AP)—Showman Mike Todd says his pregnant wife, film star Elizabeth Taylor, appears to have escaped premature childbirth for the present.

"She's starting to scream at me," he said jokingly Monday. "So I know she's feeling better."

Miss Taylor was taken to Columbia Presbyterian Medical Center last Thursday after she suffered premature labor pains. The baby is due in late October.

Admiral Halsey Feels 'Very Well' in Clinic

NEW YORK (AP)—Retired Fleet Adm. William F. (Bull) Halsey, 74, was reported "feeling very well" today in Doctors Hospital, where he is undergoing a physical checkup.

The World War II hero was reported Monday to have suffered a stroke, but a hospital spokesman said today "his condition had been exaggerated."

"The admiral is not in bed," the spokesman said. "He is feeling very well."

Carol Ann Wilt Becomes Bride of Dr. Carol Krier

Dr. and Mrs. Carol Alnoth Krier

The marriage of Miss Carol Ann Wilt, daughter of Mr. Howard T. Wilt, 931 Lakeview Ave., and the late Mrs. Wilt, to Dr. Carol Alnoth Krier was impressively solemnized at 10 a. m. Saturday in St. Colman's Church. Dr. Krier is the son of Mr. and Mrs. Henry A. Krier, Seattle, Wash.

The Rev. Charles Leising S.V.P., officiated at the high mass, double ring ceremony. Cathedral and altar vases filled with white gladioli and pink asters lined the altar.

Miss Nancy Schlue, of Washington C. H., was maid of honor and Miss Louise Stewart, Miss Janet Howard, Miss Brenda Emery and Miss Johannah Langstaff, all of Columbus, were bridesmaids.

Mr. Ted Sayer, of Grove City, served as best man and Mr. Jerry

Welsh, Mr. Ronald Thompson, Mr. Charles Eckels and Mr. John Smith, all of Columbus, were ushers.

Organ music was presented by Mrs. J. Rankin Paul. Included in her selections were: "Consecration" by Beihl; "Jesus Joy of Man's Desiring" by Bach; "Panis Angelicus" by Franck; "Processional" by Raffy; and "Recessional" by C. Rossini. The choir sang "Mass of St. David," by Rees, with Mr. Francis Molloy as soloist.

Given in marriage by her father, the bride was lovely in a gown of pure silk taffeta fashioned along princess lines with re-embroidered, pearl studded alencon lace outlining the portrait neckline and the edge of the bracelet length sleeves. The lace also accented the low waistline and the circular bouffant skirt extended into a sweep train. The finger tip veil of French illusion was caught to a queen's crown of pearls and iridescent. She carried a cascade bouquet of white feathered carnations and lilies of the valley centered with a gold throated white orchid.

The attendants wore identical gowns of sea Nile green silk organza with chantilly lace empire yokes, portrait necklines and brief sleeves. The princess lines swept into full circular skirts and their matching half hats were of braided iridescent straw and tulle with circular maine veils. They carried cascade bouquets of white gladioli centered with pink asters with a shower of knotted pink satin streamers. The maid of honor's bouquet was centered with pink roses.

After the ceremony a wedding breakfast for the immediate families was held at Anderson's Restaurant. The bride then changed into a gray tulle dress with black and white accessories and pinned the orchid from her bouquet at her shoulder, and the couple left on a 25-day wedding trip through the Pacific Northwest.

The new Mrs. Krier is a 1955 graduate of Washington High School and attended the Springfield City Hospital School of Nursing.

Dr. Krier graduated from St. Martin's College, Olympia, Wash., with a Bachelor of Science degree (magna cum laude) in chemistry. He also graduated from the University of Pittsburgh with a Doctor of Philosophy degree in physical chemistry. He is now employed at Battelle Institute, Columbus.

After their wedding trip they will make their home in Columbus.

Birthday Dinner At Judy Home

Mrs. Edward Kruger and her brother, Mr. Milton Ankrum, of McArthur, were guests of honor at a birthday dinner at the home of Mrs. Kruger's son-in-law and daughter, Mr. and Mrs. Willard Judy, Sunday.

The picnic dinner was served at tables on the spacious lawn.

Those present were: Miss Lela Kruger, Mr. and Mrs. Leslie Solars, Mr. and Mrs. H. Edward Kruger and daughters, Barbara and Helen, Mr. and Mrs. Lee Rowe and daughters, Emily and Jo Ellen, all of Washington C. H.

Mr. and Mrs. Maynard Kruger and children, Jaice and Fritz, of Batavia; Mr. and Mrs. Frank Thompson, of Dayton; Mr. and Mrs. B. A. Harden, of Columbus; Mrs. Pandal Smith and daughters, Judy and Debbie, Mr. and Mrs. Lawrence Seitz and daughters, Carol, Mr. and Mrs. Delbert Ankrum and daughter, Sharon, and Mr. and Mrs. Tom Ankrum, all of McArthur.

Michael Reunion

The Michael reunion was held Sunday at the home of Mr. and Mrs. Fred Moser. Forty-five relatives and a guest were present for the picnic on the lawn.

During a short business session the group decided to hold next year's reunion at the home of Howard Michael, West Mansfield. Visiting was enjoyed during the remainder of the afternoon.

Relatives were present from Hillsboro, Columbus, Ostrander, Marysville, West Mansfield and Celina.

WCH Girl Completes Course in Modeling

Sherry Jo Seyfang, 16, daughter of Mr. and Mrs. Harley Seyfang was graduated Saturday from a five-week course in "Self Improvement Modeling" conducted by the Lazarus Co. in Columbus. Miss Seyfang is a junior in Washington High School.

Local people attending the graduation exercises included Mrs. Harley Seyfang, Mr. and Mrs. Ernest Kier and Miss Florence Hidy.

Social Happenings

6 The Record-Herald Tuesday, July 30, 1957
Washington C. H. Ohio

Rebecca Haines, Ronald Eselgroth Nuptials Read Sunday Evening

Miss Rebecca June Haines became the bride of Mr. Ronald Franklin Eselgroth at 8 p. m. Sunday in the Austin Methodist Church with the Rev. Herbert Lockwood officiating.

The bride is the daughter of Mr. and Mrs. Marion T. Haines of the Good Hope - Austin Rd., near Frankfort. Mr. Eselgroth's parents are Mr. and Mrs. Edwin A. Eselgroth, Route 6, Chillicothe.

Miss Nancy Baxla of Greenfield, cousin of the bride, was maid of honor and Mr. Harold Eselgroth, served his brother as best man.

Ushers were Mr. Paul Drummond of Clarksburg, and Mr. Robert Drummond of Orient, cousins of the groom; Mr. James R. Wilson and Mr. Matthew McDonald, cousins of the bride, both of Washington C. H.

Two tall white vases of white gladioli, chrysanthemums and greenery flanked by two seven-branch candelabras holding lighted tapers, decorated the altar. White satin bows marked the family pews.

A half hour of nuptial music presented by the bride's brother, Mr. Rodney Haines, pianist, included "Lombardy Poplars;" "Liebestraum," "To a Wild Rose," "Romance," "In My Garden," "Clair De Lune," "The Lord is My Shepherd," and the traditional wedding marches.

Mr. Max Schlichter of Blooming-

Personals

Miss Linda Lou Hidy returned to Springfield City Hospital School of Nursing Monday evening after spending two weeks vacation with her parents, Mr. and Mrs. Donald Hidy.

Mr. Thomas Lane, of Gambier, is visiting with his niece, Mrs. Ray Bowers, Mr. and Mrs. Bowers.

Tommy Curl, son of Mr. and Mrs. Kenneth Curl, left Sunday for a week's camping at Camp Campbell Road, Hamilton.

Pfc David L. Overly has returned to Worth, Ill., after a short leave with his parents, Mr. and Mrs. Elva Overly.

Mrs. Katherine Griffith, of Wil-lington, and Mrs. Ethel Wilkins visited with Mr. and Mrs. V. H. Hammond, in Port Clinton, over the weekend.

Mr. and Mrs. Gilbert Crouse are entertaining for a week, Mrs. Crouse's grandmother, Mrs. Susan Castle, and her mother, Mrs. Robert Fawer, both of Gwesson, Mich. Also her sister, Mrs. John Moss and daughters, Cathy, Nora Jane and Mary Lee, of Pontiac, Mich.

Mr. and Mrs. Floyd Sprague, their daughter, Linda, 10, and son, Ronald, 4, have returned to Washington C. H., their former home, after five years in Los Angeles. They plan to make their future home here.

THURSDAY, AUG 1

Missionary Society of Bloomingburg Presbyterian Church meets with Mrs. Thayne McCoy, at 2 p. m.

Buckeye Chapter of International Mailbag Club meets with Mrs. Roy Rogers at 7:30. All members are urged to take gifts for secret pals.

The Mount Olive WSCS meets with Mrs. Walter Engle for noon luncheon.

SUNDAY, AUGUST 4

Sowers reunion at Ocatanga Park, Chillicothe. Basket lunch at noon.

New Martinsburg WCTU meets with Mrs. Glenn Heistand at 6:30 p. m. for family picnic.

Family Dinner At Hurtt Home

Mrs. Libbie Hurtt and daughter, Ona, entertained with a family dinner Sunday at their home near Clarksburg in honor of their house guests, Mrs. Robert Caruthers and Mr. Virgil Toops and son, Larry, of Erie, Pa.

After the tempting turkey dinner, croquet was enjoyed and movies shown.

Other guests included: Mr. and Mrs. Carl Bowdle and family, of Palatka, Fla., Mr. and Mrs. John Baughman and daughter, Pam, Mr. and Mrs. Robert Downing and daughter, Susan, all of Xenia. Mr. Frederick Mace, of Circleville; Mr. P. Casco, of Clarksburg; Miss Betty Martin, Mr. and Mrs. Don Bowdle and daughter, Lynn, and Mr. and Mrs. E. K. Overly and family, all of Washington C. H.

Lieut. Provost Is Promoted

Second Lieut. Robert E. Provost of Company M, Fayette County's National Guard unit, was made first lieutenant while at Ft. Benning, Ga., where he went through officers' basic infantry school.

Few others besides Capt. Charles Wimer, company commander, now outrank him.

Sergeant First Class Daryl E. Hamley has been promoted to master sergeant, it was announced at the same time. The promotion is effective Aug. 5.

Three new enlistments by Company M are:

Ronnie E. Knisley, 834 Lincoln Dr., a 1957 Washington C. H. High School graduate, who reports for six months' active duty training Sept. 8;

Paul E. Cox, of 724 Sycamore St., another 1957 WHS graduate who will report for active duty training at the same time.

Darrell J. Steen, Wilmington College graduate now teaching commercial subjects in South Solon High School. He left for six months' active duty training July 23.

Mike Todd Says Actress Wife OK

NEW YORK (AP)—Showman Mike Todd says his pregnant wife, film star Elizabeth Taylor, appears to have escaped premature childbirth for the present.

"She's starting to scream at me," he said jokingly Monday, "so I know she's feeling better."

Miss Taylor was taken to Columbia Presbyterian Medical Center last Thursday after she suffered premature labor pains. The baby is due in late October.

Admiral Halsey Feels 'Very Well' in Clinic

NEW YORK (AP)—Retired Fleet Adm. William F. (Bull) Halsey, 74, was reported "feeling very well" today in Doctors Hospital, where he is undergoing a physical checkup.

The World War II hero was reported Monday to have suffered a stroke, but a hospital spokesman said today "his condition had been exaggerated."

"The admiral is not in bed," the spokesman said. "He is feeling very well."

Carol Ann Wilt Becomes Bride of Dr. Carol Krier

Dr. and Mrs. Carol Alnoth Krier

The marriage of Miss Carol Ann Wilt, daughter of Mr. Howard T. Wilt, 931 Lakeview Ave., and the late Mrs. Wilt, to Dr. Carol Alnoth Krier was impressively solemnized at 10 a. m. Saturday in St. Columbian Church. Dr. Krier is the son of Mr. and Mrs. Henry A. Krier, Seattle, Wash.

The Rev. Charles Leisring S.V.P., officiated at the high mass. double ring ceremony. Cathedral and altar vases filled with white gladioli and pink asters lined the altar.

Miss Nancy Schlue, of Washington C. H., was maid of honor and Miss Louise Stewart, Miss Janet Howard, Miss Brenda Emery and Miss Johannah Langstaff, all of Columbus, were bridesmaids.

Mr. Ted Sayer, of Grove City, served as best man and Mr. Jerry

Welsh, Mr. Ronald Thompson, Mr. Charles Eckels and Mr. John Smith, all of Columbus, were ushers.

Organ music was presented by Mrs. J. Rankin Paul. Included in her selections were: "Consecration" by Biehl; "Jesu Joy of Man's Desiring" by Bach; "Panis Angelicus" by Franck; "Processional" by Raffy; and "Recessional" by C. Rossini. The choir sang "Mass of St. David," by Rees, with Mr. Francis Molloy as soloist.

Given in marriage by her father, the bride was lovely in a gown of pure silk taffeta fashioned along princess lines with re-embroidered, pearl studded alencon lace outlining the portrait neckline and the edge of the bracelet length sleeves. The lace also accented the low waistline and the circular bouffant skirt extended into a sweep train. The finger tip veil of French illusion was caught to a queen's crown of pearls and iridescent. She carried a cascade bouquet of white feathered carnations and lilies of the valley centered with a gold threaded white orchid.

The attendants wore identical gowns of sea silk green silk organza with chantilly lace empire yokes, portrait necklines and brief sleeves. The princess lines swept into full circular skirts and their matching half hats were of braided iridescent straw and tulle with circular maline veils. They carried cascade bouquets of white gladioli centered with pink asters with a shower of knotted pink satin streamers. The maid of honor's bouquet was centered with pink roses.

After the ceremony a wedding breakfast for the immediate families was held at Anderson's Restaurant. The bride then changed into a gray dacton dress with black and white accessories and pinned the orchid from her bouquet at her shoulder, and the couple left on a 25-day wedding trip through the Pacific Northwest.

The new Mrs. Krier is a 1955 graduate of Washington High School and attended the Springfield City Hospital School of Nursing.

Dr. Krier graduated from St. Martin's College, Olympia, Wash., with a Bachelor of Science degree (magna cum laude) in chemistry. He also graduated from the University of Pittsburgh with a Doctor of Philosophy degree in physical chemistry. He is now employed at Battelle Institute, Columbus.

After their wedding trip they will make their home in Columbus.

Birthday Dinner At Judy Home

Mrs. Edward Kruger and her brother, Mr. Milton Ankrom, of McArthur, were guests of honor at a birthday dinner at the home of Mrs. Kruger's son-in-law and daughter, Mr. and Mrs. Willard Judy, Sunday.

The picnic dinner was served at tables on the spacious lawn. Those present were: Miss Lela Kruger, Mr. and Mrs. Leslie Lela Kruger, Mr. and Mrs. H. Edward Kruger and daughters, Barbara and Helen, Mr. and Mrs. Lee Rowe and daughters, Emily and Jo Ellen, all of Washington C. H.

Mr. and Mrs. Maynard Kruger and children, Jaice and Fritz, of Batavia; Mr. and Mrs. Frank Thompson, of Dayton; Mr. and Mrs. B. A. Harden, of Columbus; Mrs. Randal Smith and daughters, Judy and Debbie, Mr. and Mrs. Lawrence Seitz and daughters, Carol, Mr. and Mrs. Delbert Ankrom and daughter, Sharon, and Mr. and Mrs. Tom Ankrom, all of McArthur.

Michael Reunion

The Michael reunion was held Sunday at the home of Mr. and Mrs. Fred Moser. Forty-five relatives and a guest were present for the picnic on the lawn.

During a short business session the group decided to hold next year's reunion at the home of Howard Michael, West Mansfield. Visiting was enjoyed during the remainder of the afternoon.

Relatives were present from Hillsboro, Columbus, Ostrander, Marysville, West Mansfield and Celina.

WCH Girl Completes Course in Modeling

Sherry Jo Seyfang, 16, daughter of Mr. and Mrs. Harley Seyfang was graduated Saturday from a five-week course in "Self Improvement Modeling" conducted by the Lazarus Co. in Columbus. Miss Seyfang is a junior in Washington High School.

Local people attending the graduation exercises included Mrs. Harley Seyfang, Mr. and Mrs. Ernest Kier and Miss Florence Hidy.

Social Happenings

6 The Record-Herald Tuesday, July 30, 1957
Washington C. H. Ohio

Rebecca Haines, Ronald Eselgroth Nuptials Read Sunday Evening

Miss Rebecca June Haines became the bride of Mr. Ronald Franklin Eselgroth at 8 p. m. Sunday in the Austin Methodist Church with the Rev. Herbert Lockwood officiating.

The bride is the daughter of Mr. and Mrs. Marion T. Haines of the Good Hope - Austin Rd., near Frankfort. Mr. Eselgroth's parents are Mr. and Mrs. Edwin A. Eselgroth, Route 6, Chillicothe.

Miss Nancy Baxla of Greenfield, cousin of the bride, was maid of honor and Mr. Harold Eselgroth, served his brother as best man.

Ushers were Mr. Paul Drummond of Clarksburg, and Mr. Robert Drummond of Orient, cousins of the groom; Mr. James R. Wilson and Mr. Matthew McDonald, cousins of the bride, both of Washington C. H.

Two tall white vases of white gladioli, chrysanthemums and greenery flanked by two seven-branch candelabras holding lighted tapers, decorated the altar. White satin bows marked the family pews.

A half hour of nuptial music presented by the bride's brother, Mr. Rodney Haines, pianist, included "Lombardy Poplars," "Liebs-traum," "To a Wild Rose," "Romance," "In My Garden," "Clair de Lune," "The Lord is My Shepherd," and the traditional wedding marches.

Mr. Max Schlichter of Blooming-

burg, was accompanied by his wife as he sang "Because," "Savior Like a Shepherd Lead Us," and "The Lord's Prayer."

Accompanied by her father, the bride was lovely as she walked down the aisle wearing a bridal gown she had designed and made. Fashioned on princess lines, the ballerina length gown of white Chantilly lace over bridal satin featured a V neckline and short sleeves. She wore short lace mits. Her finger tip length veil was attached to a satin headpiece. She carried a white Bible topped with a white orchid from which cascaded white ribbon streamers.

The maid of honor was attired in a gown of the same design, in pastel pink embroidered taffeta. She wore white mits and her jewelry, a gift of the bride, was a pearl necklace and earrings. She carried a colonial bouquet of blue and white pom pom chrysanthemums.

The bride's mother chose delft blue shantung dress with white accessories for the occasion. The groom's mother wore a navy crepe ensemble with white accessories. Each had a white carnation corsage.

Immediately following the ceremony a reception was held at the home of the bride's parents. A three-tiered wedding cake topped with a miniature bride and groom figurine centered the bridal table, and flanking it on both sides were white tapers in crystal holders and bouquets of summer flowers.

Hostesses were: Miss Janet Wilson, of Columbus; Mrs. Eugene Nelson, of Wilmington; Mrs. Charles Drummond, of Greenfield; Mrs. Wayne Finley, of New Petersburg; Mrs. Charles Sturgeon, of Frankfort; Mrs. James Wilson and Mrs. W. A. Haines, of Washington C. H.

When the young couple left for a short honeymoon the bride was dressed in a turquoise beaucou sheath with a white bolero and white accessories. The orchid from her bridal bouquet was pinned at her shoulder.

The bride is a 1954 graduate of Frankfort High School and the groom is a 1952 graduate of Centralia High School. He served with the United States Army and is now engaged in farming with his father. The young couple will make their home on Route 6, Chillicothe.

Out-of-town guests at the wedding were from Columbus, Orient, Clarksburg, Lyndon, Wilmington, Greenfield, New Petersburg, East Monroe, Chillicothe, Jeffersonville, Bloomingburg and Washington C. H.

The bridegroom's parents were hosts to 26 of the bridal group at a rehearsal party Saturday evening at the home of Mr. and Mrs. Charles Sturgeon, near Frankfort.

Toledo Postmaster Dies

Vinegar Bend Looking Sharp For Cardinals

Mizell Allows Pirates 2 Hits as St. Louis Stays Close to Braves

By THE ASSOCIATED PRESS
Wilmer (Vinegar Bend) Mizell, who has been either very good or very bad so far, looks as though he has his "comeback" in the bag as the St. Louis Cardinals continue to put the pressure on Milwaukee in that National League pennant race.

He went 11 innings to beat Cincinnati 4-3 and pitched the Cardinals into the lead July 5. And it was he who gave up that grand-slam home run to Gil Hodges in the wild ninth inning at Brooklyn July 18 as the Dodgers beat the Cards in 11 and dumped them out of first place.

Monday night, the 26-year-old lefty did all he could to help regain the lead, pitching a two-hitter that beat Pittsburgh 4-0. It was the eighth victory—and third shut-out—in 10 games for the Cards, who stayed second as Milwaukee staged a four-run ninth-inning rally and then pushed over a 10th-inning run to beat the New York Giants 9-8.

That left the Braves three percentage points ahead of the Cards and put them two up on idle Brooklyn. The Dodgers' hold on third place was shaved to half a game as the Philadelphia Phillies, behind Robin Roberts' four-hitter, defeated the Chicago Cubs 6-0.

In the American, southpaw Billy Pierce won his 15th with a four-hitter as the second-place Chicago White Sox trimmed Baltimore 5-0. Boston beat Cleveland 6-2 in the only other game scheduled.

Only two men reached base against Mizell, who gave up a single to Dick Groat and a double to Frank Thomas with two out in the fourth, then counted Roman Mejias among his six strikeouts to end the frame. It was the third victory of the month for Mizell, who moped into July with a 1-6 record. Now he's 4-7.

Wally Moon drove in two runs for the Cards, who managed just two runs, one unearned, off Charley (Whammy) Douglas despite seven walks in five innings from the young, one-eyed right-hander called up from Columbus of the American Assn. Sunday.

The Braves made it 11 out of 15 with a bases-loaded, two-out walk in the 10th after scoring four in the ninth to get a tie. Del Crandall's 13th homer triggered the rally, which brought the tying run home on an error. Two walks sandwiched Crandall's single in the 10th before Felix Mantilla, pinch-hitting in his first appearance since a July 11 injury, worked losing reliever Al Worthington for the payoff pass on a 3-2 pitch.

Wes Covington's two-run homer had given Carter Warren Spahn a 3-2 lead in the fourth, but home runs by Daryl Spencer and Ray Jablonski homered to chase the lefty and Willie Mays then homered for a 5-4 New York lead before the Giants added three more in the ninth. Bob Trowbridge won it for the Braves.

Roberts was at his best winning his second in a row—after seven straight defeats—for the Phils to gain an 8-1 record. He walked three and struck out six, while gaining his first shutout since July 14, 1956.

Rookie Harry Anderson, who had three singles, drove in two runs for the Phils, tagged Don Elston with the defeat with a first-inning sacrifice fly.

Pierce, the top winner in the majors, walked none and struck out six as the Sox junked Heck Brown's four-hit shutout with three runs in the sixth on two walks and singles by Minnie Minoso and Luis Aparicio.

Tom Brewer won his fourth in a row as the Red Sox beat Mike Garcia. Ted Williams, 2-for-3 for a .379 average, singled and scored the clinching run in the fourth as Norm Zauchin doubled. Williams again was walked with men on first and second, but Jackie Jensen, who hit into a double play when the Indians tried the strategy for the first time Sunday, hit a two-run single this time.

Big Ten Probe Being Continued

CHICAGO (AP)—The Big Ten Athletic Conference, in the wake of its one year suspension of Indiana football coach Phil Dickens, is conducting investigation of numerous rumors and allegations of recruiting violations.

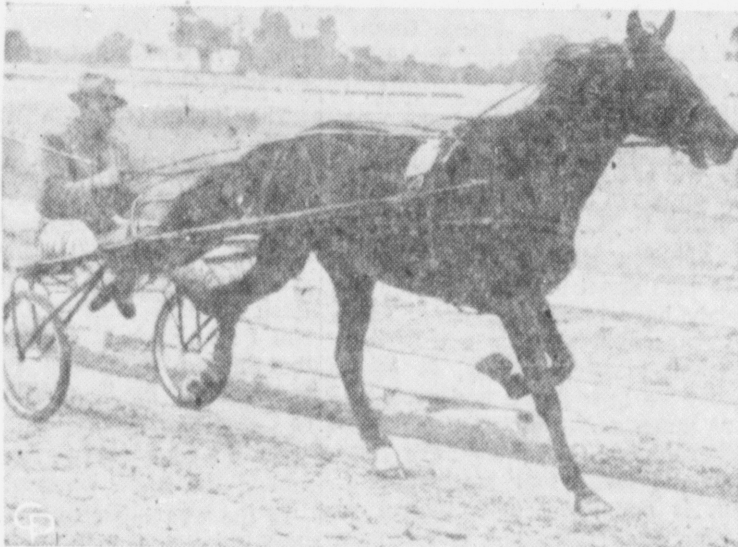

Commissioner K. L. (Tug) Wilson said Monday, "There are fewer complaints from Big Ten schools under the new financial aid plan, but there are more of them coming directly into our office than in the past."

Wilson said each report or allegation is being investigated and added that the rumors "involve every Big Ten institution."

Stars Told They Gotta Be 'Mean'

SEEKS HAMBLETONIAN WIN AT 77

SHOULD Fred Egan, age 77, pilot Cassin Hanover to victory in the \$100,000-plus Hambletonian Stake at Du Quoin, Ill., Aug. 27. He will become the oldest driver ever to win the top sulky classic. Egan, who won the 1940 and 1949 Hambletonians, is shown exercising Cassin Hanover at the Goshen, N. Y., track. (International)

Nuxhall Feels He Overcomes Faulty Moves

CINCINNATI (AP)—Southpaw Joe Nuxhall figures he has whipped the faulty technique that hampered his hurling for the Cincinnati Redlegs earlier this season.

And the changes shows in his work—the most recent performance being his 2-0 shutout of Pittsburgh last Wednesday on eight hits.

The 29-year-old Hamilton left-hander said Monday night, "I've felt really good in the last six times out and I've been more relaxed."

And he added, "There's nothing like confidence." Nuxhall, once one of the most effective southpaws in the National League, said his trouble was mechanical, his delivery was haywire.

"I have been throwing overhand," he said. "When I have my best stuff, I throw about three-quarters. But in this slump, I figured I was throwing at three-quarters, it actually was overhand."

"It was just something I had to work out by myself."

Nuxhall said he was also fighting himself. "Like a hitter in a slump, I was pressing too hard, trying too hard. It's a funny darn thing, but I'd say to myself I'll go out there and relax, but I'd get out there and it didn't work."

His shutout last week was the second straight game in which he has gone all the way for the Reds.

Burke Heads U. S. Ryder Cup Players
DUNEDIN, Fla. (AP)—Jack Burke Jr. heads the list of 10 U. S. golf professionals named to play the British in the Ryder Cup matches this year.

Burke is on the team for the fourth time, more than any other member. Ted Kroll will be playing for the third time. Doug Ford and Tommy Bolt will make their second appearance.

Loofers Beat Elks In Minor League
Hurler Gary Knisley put on an excellent hitting exhibition Monday night at Wilson Field as his team, the Loafers, won a Little Minor League victory, 11 to 4, over the Elks. Knisley cracked out two triples and a homer in addition to twirling a neat 5-hitter.

Wendell Barr, Loafer first sacker, also had a perfect day at the plate with two for two.

Joe Kiefer was the Elk hurler. Here were the lineups: Loafers—Burbage, Paul Barr, Knisley, Ladocek, Mathews, Wharton, Randolph, Miller, Haines, E. Stone, R. Stone.

Elks—Davis, Mohr, J. Campbell, Thomas, Keifer, Southworth, Bass, Hagerty, M. Campbell, Bennett, Jamison, E. Campbell.

Tom Brewer won his fourth in a row as the Red Sox beat Mike Garcia. Ted Williams, 2-for-3 for a .379 average, singled and scored the clinching run in the fourth as Norm Zauchin doubled. Williams again was walked with men on first and second, but Jackie Jensen, who hit into a double play when the Indians tried the strategy for the first time Sunday, hit a two-run single this time.

football champions, at Soldier Field Aug. 9.

One seasoned observer said: "They (the All Stars) can be the 48 nicest young college graduates in the world the morning of Aug. 10. But the night of Aug. 9 they'd better be mean enough to bite their own brothers. Otherwise it will be no contest. Those Giants are not going to be doing any harm tackling. They'll really hit."

EVANSTON, Ill. (AP)—The College All Stars are going to have to get mean if they hope to defeat the New York Giants, professional

Good Hope Wins From Bloomingburg

The Good Hope nine celebrated its return to Babe Ruth League action Monday evening, after an extended all star break, with a resounding 15-6 triumph over the Bloomingburg outfit.

The Good Hope boys, apparently ready to be recognized as a potent ball club, belted out 15 hits while backing up Dave Frock's best-ever hurling job. Frock himself showed the way for the Good Hope hitters with a perfect 4 for 4 day at the plate while Frank McCoppin was runner up for hitting honors with 3 for 4. Mike Newman and All-Star Don Strouth had two hits apiece with Newman getting a homer.

Jim Hidy led the Bloomingburg 10-hit eruption with 3 for 3 while hurler Bucky Smith, treated roughly on the hill by the Good Hopers, batted out two safeties. The switch-hitting Mike Evans, starting All-Star first sacker, stroked a homer for Bloomingburg.

Patterson Gets Short Rest After Butchering Jackson

NEW YORK (AP)—Heavyweight champion Floyd Patterson today planned the luxury of a day and a half of loafing after his butchering of Tommy (Hurricane) Jackson.

Then the 22-year-old champ will resume training for his "fantastic" title defense against Pete Rademacher, the balding, Olympic heavyweight champion of 1956, at Seattle Aug. 22.

He scored a 10th-round technical knockout over Jackson at the Polo Grounds Monday night earning a guaranteed \$175,000. For his defense against Rademacher, who never has fought pro, he will collect a \$250,000 guarantee.

This adds up to \$425,000 for two fights within 24 days for the one-time wayward boy who is following in the footsteps of Joe Louis on boxing's golden trail.

Weighing the heaviest of his career at 184 pounds and punching with blinding speed, Patterson won his 19th straight victory and may have ended the fight career of the fighter known as the "Animal" in boxing circles.

They call Jackson, "Animal" because of his ability to absorb punishment and his tremendous stamina. But he took too much for any one beat before Referee Ruby Goldstein ended the bout at 1:52 of the 10th with the protesting Jackson wobbling but on his feet.

The 25-year-old 192½-pound challenger from New York had been dropped three times previously, and had been rocked from head to toe in almost every round by Patterson's violent bursts. His face was battered and bleeding.

There was some confusion at the ringside over the counts of the knockdowns but Goldstein said afterwards Jackson was up at the count of one in the first round.

Indians Happy To Escape Terrible Ted
BALTIMORE (AP)—Happy to escape from Ted Williams, the Cleveland Indians open a two-game series with the scrappy Baltimore Orioles tonight.

Terrible Ted led the Red Sox to three victories in the four-game series with the Indians. He got 10 hits in 13 at bats in the series, knocked in seven runs, and scored eight.

In the series finale Monday, Boston pounded Mike Garcia, who pitched all the way for the Tribe, for 12 hits to notch a 6-2 victory.

Williams contributed a double and two singles to the winning effort and kicked his American League batting average to .378 and his average against the Indians to an amazing .532.

He was also given an intentional pass, his 22nd of the season, five more than the league record he set in 1955. The walk came in the seventh inning with runners at first and second and only one out. In a similar bit of strategy Sunday, Manager Kerby Farrell ordered Williams walked and Jackie Jensen hit into a doubleplay.

The man-over failed Monday as Jensen rapped out a two-run single to give the Red Sox a 5-2 lead. Vic Wertz was the big gun for the Indians. He hit two-for-four, including a home run. He scored Cleveland's other run when he singled in the second, took second on a wild pitch and came home on a single.

Medics Edge Girtens In Babe Ruth League

Babe Ruth League baseball got back into heavy action at the Community Park Monday evening as the Medics edged the Girtens team, 7-6.

In contrast to the score, the game was not close all the way. The Medics had a 5-run spurge in the third frame.

The Frozen Food crew pecked away at its deficit and scored all six runs through the fourth, fifth and sixth innings.

Billy Crooks and Johnny Bill McLean cracked out two hits each for the winners while Bob Huff and Duane Callender each had a pair of safeties for the Girtens.

Dave Massie, Medic left-hand e.d., twirled a complete game in holding the Girtens sluggers to six hits. Massie whiffed nine batters and walked only five.

Eddie Juillat did the pitching for the losers, striking out five and walking five.

Infield errors were partly due to the rough condition of the infield. The city tractor is being repaired and therefore the infield has not been dragged, nor has the outfield grass been mowed.

Umpires for the game were Evans and Davis.

Doubles were hit by McLean and Callender.

Vinegar Bend Looking Sharp For Cardinals

Mizell Allows Pirates 2 Hits as St. Louis Stays Close to Braves

By THE ASSOCIATED PRESS
Wilmer (Vinegar Bend) Mizell, who has been either very good or very bad so far, looks as though he has his "comeback" in the bag as the St. Louis Cardinals continue to put the pressure on Milwaukee in that National League pennant race.

He went 11 innings to beat Cincinnati 4-3 and pitch the Cardinals into the lead July 5. And it was he who gave up that grand-slam home run to Gil Hodges in the wild ninth inning at Brooklyn July 18 as the Dodgers beat the Cards in 11 and dumped them out of first place.

Monday night, the 26-year-old lefty did all he could to help regain the lead, pitching a two-hitter that beat Pittsburgh 4-0. It was the eighth victory—and third shut-out—in 10 games for the Cards, who stayed second as Milwaukee staged a four-run ninth-inning rally and then pushed over a 10th-inning run to beat the New York Giants 9-8.

That left the Braves three percentage points ahead of the Cards and put them two up on idle Brooklyn. The Dodgers' hold on third place was shaved to half a game as the Philadelphia Phillies, behind Robin Roberts four-hitter, defeated the Chicago Cubs 6-0.

In the American, southpaw Billy Pierce won his 15th with a four-hitter as the second-place Chicago White Sox trimmed Baltimore 5-0. Boston beat Cleveland 6-2 in the only other game scheduled.

Only two men reached base against Mizell, who gave up a single to Dick Groat and a double to Frank Thomas with two out in the fourth, then counted Roman Mejias among his six strikeouts to end the frame. It was the third victory of the month for Mizell, who moped into July with a 1-6 record. Now he's 4-7.

Wally Moon drove in two runs for the Cards, who managed just two runs, one unearned, off Charley (Whammy) Douglas despite seven walks in five innings from the young, one-eyed right-hander called up from Columbus of the American Assn. Sunday.

The Braves made it 11 out of 15 with a bases-loaded, two-out walk in the 10th after scoring four in the ninth to get a tie. Del Crandall's 13th homer triggered the rally, which brought the tying run home on an error. Two walks sandwiched Crandall's single in the 10th before Felix Mantilla, pinch-hitting in his first appearance since a July 11 injury, worked losing reliever Al Worthington for the payoff pass on a 3-2 pitch.

Wes Covington's two-run homer had given starter Warren Spahn a 3-2 lead in the fourth, but home runs by Daryl Spencer and Ray Jablonski homered to chase the lefty and Willie Mays then homered for a 5-4 New York lead before the Giants added three more in the ninth. Bob Trowbridge won it for the Braves.

Roberts was at his best winning his second in a row—after seven straight defeats—for the Phils to gain an 8-13 record. He walked three and struck out six, while gaining his first shutout since July 14, 1956.

Rookie Harry Anderson, who had three singles, drove in two runs for the Phils, tagged Don Elston with the defeat with a first-inning sacrifice fly.

Pierce, the top winner in the majors, walked none and struck out six as the Sox junked Hee Brown's four-hit shutout with three runs in the sixth on two walks and singles by Minnie Minoso and Luis Aparicio.

Tom Brewer won his fourth in a row as the Red Sox beat Mike Garcia. Ted Williams, 2-for-3 for a .379 average, singled and scored the clinching run in the fourth as Norm Zaichin doubled. Williams again was walked with men on first and second, but Jackie Jensen, who hit into a double play when the Indians tried the strategy for the first time Sunday, hit a two-run single this time.

Big Ten Probe Being Continued

CHICAGO (AP)—The Big Ten Athletic Conference, in the wake of its one year suspension of Indiana football coach Phil Dickens, is conducting investigation of numerous rumors and allegations of recruiting violations.

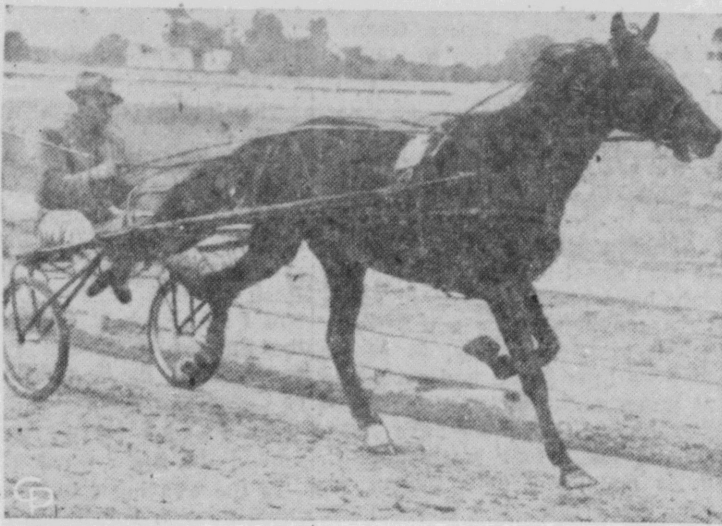

Commissioner K. L. (Tug) Wilson said Monday, "There are fewer complaints from Big Ten schools under the new financial aid plan, but there are more of them coming directly into our office than in the past."

Wilson said each report or allegation is being investigated and added that the rumors "involve every Big Ten institution."

Stars Told They Gotta Be 'Mean'

EVANSTON, Ill. (AP)—The College All Stars are going to have to get mean if they hope to defeat the New York Giants, professional

SEEKS HAMBLETONIAN WIN AT 77

SHOULD Fred Egan, age 77, pilot Cassin Hanover to victory in the \$100,000-plus Hambletonian Stake at Du Quoin, Ill., Aug. 27, he will become the oldest driver ever to win the sulky classic. Egan, who won the 1940 and 1949 Hambletonians, is shown exercising Cassin Hanover at the Goshen, N. Y., track. (International)

Nuxhall Feels He Overcomes Faulty Moves

CINCINNATI (AP)—Southpaw Joe Nuxhall figures he has whipped the faulty technique that hampered his hurling for the Cincinnati Redlegs earlier this season.

And the changes shows in his work—the most recent performance being his 2-0 shutout of Pittsburgh last Wednesday on eight hits.

The 29-year-old Hamilton left-hander said Monday night, "I've felt really good in the last six times out and I've been more relaxed."

And he added, "There's nothing like confidence."

Nuxhall, once one of the most effective southpaws in the National League, said his trouble was mechanical, his delivery was haywire.

"I have been throwing overhand," he said. "When I have my best stuff, I throw about three quarters. But in this slump, I figured I was throwing at three-quarters, it actually was overhand."

"It was just something I had to work out by myself."

Nuxhall said he was also fighting himself. "Like a hitter in a slump, I was pressing too hard, trying too hard. It's a funny darn thing, but I'd say to myself I'll go out there and relax, but I'd get out there and it didn't work."

His shutout last week was the second straight game in which he has gone all the way for the Reds.

Burke Heads U. S. Ryder Cup Players

DUNEDIN, Fla. (AP)—Jack Burke Jr. heads the list of 10 U. S. golf professionals named to play the British in the Ryder Cup matches this year.

Burke is on the team for the fourth time, more than any other member. Ted Kroll will be playing for the third time. Doug Ford and Tommy Bolt will make their second appearance.

Loafers Beat Elks In Minor League

Hurler Gary Knisley put on an excellent hitting exhibition Monday night at Wilson Field as his team, the Loafers, won a Little Minor League victory, 11 to 4, over the Elks. Knisley cracked out two triples and a homer in addition to twirling a neat 5-hitter.

Wendell Barr, Loafer first sacker, also had a perfect day at the plate with two for two.

Joe Kiefer was the Elk hurler. Here were the lineups: Loafers—Burbage, Paul Barr, Knisley, Laddock, Mathews, Wharton, Randolph, Miller, Haines, E. Stone, R. Stone.

Elks—Davis, Mobre, J. Campbell, Thomas, Keifer, Southworth, Bass, Hagerty, M. Campbell, Bennett, Jamison, E. Campbell.

Tom Brewer won his fourth in a row as the Red Sox beat Mike Garcia. Ted Williams, 2-for-3 for a .379 average, singled and scored the clinching run in the fourth as Norm Zaichin doubled. Williams again was walked with men on first and second, but Jackie Jensen, who hit into a double play when the Indians tried the strategy for the first time Sunday, hit a two-run single this time.

Football champions, at Soldier Field Aug. 9.
One seasoned observer said: "They (the All Stars) can be the 48 nicest young college graduates in the world the morning of Aug. 10. But the night of Aug. 9 they'd better be mean enough to bite their own brothers. Otherwise it will be no contest. Those Giants are not going to be doing any harm tackling. They'll really hit."

Patterson Gets Short Rest After Butchering Jackson

NEW YORK (AP)—Heavyweight champion Floyd Patterson today planned the luxury of a day and a half of loafing after his butchering of Tommy (Hurricane) Jackson.

Then the 22-year-old champ will resume training for his "fantastic" title defense against Pete Rademacher, the balding, Olympic heavyweight champion of 1956, at Seattle Aug. 22.

He scored a 10th-round technical knockout over Jackson at the Polo Grounds Monday night earning a guaranteed \$175,000. For his defense against Rademacher, who never has fought pro, he will collect a \$250,000 guarantee.

This adds up to \$425,000 for two fights within 24 days for the one-time wayward boy who is following in the footsteps of Joe Louis on boxing's golden trail.

Weighing the heaviest of his career at 184 pounds and punching with blinding speed, Patterson won his 19th straight victory and may have ended the fistic career of the fighter known as the "Animal" in boxing circles.

They call Jackson: "Animal" because of his ability to absorb punishment and his tremendous stamina. But he took too much for a career before Referee Ruby Goldstein ended the bout at 1:52 of the 10th with the protesting Jackson wobbling but on his feet.

The 25-year-old 192½-pound challenger from New York had been dropped three times previously, and had been rocked from head to toe in almost every round by Patterson's violent bursts. His face was battered and bleeding.

There was some confusion at the ringside over the counts of the knockdowns but Goldstein said afterwards Jackson was up at the count of one in the first round.

Indians Happy To Escape Terrible Ted

BALTIMORE (AP)—Happy to escape from Ted Williams, the Cleveland Indians open a two-game series with the scrappy Baltimore Orioles tonight.

Terrible Ted led the Red Sox to three victories in the four-game series with the Indians. He got 10 hits in 13 at bats in the series, knocked in seven runs, and scored eight.

In the series finale Monday, Boston pounded Mike Garcia, who pitched all the way for the Tribe, for 12 hits to notch a 6-2 victory.

Williams contributed a double and two singles to the winning effort and hiked his American League batting average to .378 and his average against the Indians to an amazing .532.

He was also given an intentional pass, his 22nd of the season, five more than the league record he set in 1955. The walk came in the seventh inning with runners at first and second and only one out.

In a similar bit of strategy Sunday, Manager Kerby Farrell ordered Williams walked and Jackie Jensen hit into a doubleplay.

The maneuver failed Monday as Jensen rapped out a two-run single to give the Red Sox a 5-2 lead.

Vic Wertz was the big gun for the Indians. He hit two-for-four, including a home run. He scored Cleveland's other run when he singled in the second, took second on a wild pitch and came home on a single.

IT'S SO EASY TO PLACE A WANT AD.

Washington C. H.

(the bell sounded to end the round), three in the second round and four in the ninth.

Goldstein and Judges Bill Recht and Joe Agnello all had Patterson ahead 9-0 scores until the rout was halted.

Perhaps the most devastating blow Patterson landed was a thumping left hook to the body in the fourth that doubled over Jackson and made him grimace in pain. Jackson offered practically nothing but courage.

Asked why he hadn't gone to the body more often, Patterson said Jackson's "elbows made him hard to hit in the body."

Patterson will rest until Wednesday when he will return to his Greenwood Lake, N.Y., camp to resume work. He said he plans to leave for Seattle Aug. 12.

Jackson, who struggled to break loose from Referee Goldstein's grip when the fight was halted, muttered, "The referee had no right to stop it."

If he really meant it he must have been the only one in the crowd of 18,101 who felt that way deep down.

He admitted he was hurt in the first round.

"My legs were lazy," he muttered. They gave me away."

Asked why he did a jig between most rounds, he replied, "To make my legs lazy."

Jackson took a fearful beating

Flashes Edge Cubs With Late Rally

The Flashes came up with three runs in the sixth inning at Wilson Field Monday night to eke out a 6-5 Little League victory over the Cubs.

Pat Lewis and Terry Armbrust teamed up to give fans an excellent pitching duel but neither hurler was charged with a decision. Relievers Donald Curtin, Flashes, Gary Kimball, Cubs, had the decisions with Kimball on the short end.

Curtin helped win his own game with two hits but Larry Armbrust, Flash first sacker, garnered the team's only other hit.

Heading a 7-hit Cub attack was Paul Shaltry who had 2 in 4 trips.

The exciting 6-5 game was just a sample of what is in store for the Little League fans who see the playoff game between the same two clubs on Wednesday. The winner of the playoff will clash with the Jets for the loop championship of the first round.

Right-handed Shaltry is expected to hurl for the Cubs while lefty Billy Halliday may well be the Flash nominee.

The Wednesday game was originally scheduled for last Saturday but a last minute change altered plays.

Asiatic Flu

May Reach Ohio in Fall

COLUMBUS, Ohio (P) — A new
type of influenza called Asiatic
Flu reportedly has already struck
San Diego, Calif., and could pos-
sibly reach Ohio this fall.

If it does, says state Health Di-
rector Dr. Ralph E. Dwork, the
state "probably will not" be able
to handle it.

The state's virus laboratory at
Ohio State University is working
at capacity now in identifying in-
fluenza strains. Dwork said Mon-
day. The laboratory could not pos-
sibly handle the increased load
that would accompany a flu epi-
demic here, he asserted.

Gov. C. William O'Neill has asked
Dwork to recommend the
amount of money needed to make
sure the state is prepared for any
new epidemic. The health director
said even if the funds were im-
mediately forthcoming, the virus
laboratory "probably could not be
expanded in time to meet the
emergency."

He added, however, that in the
event an epidemic strikes, the
virus laboratory would devote its
entire staff and facilities to iden-
tification tests and other necessary
measures, and would farm out
other laboratory functions, such
as milk testing, to other district la-
boratories.

Though not satisfactory, Dwork
said, such a program would at
least allow the virus laboratory to
handle part of the increased load.

Court Appeal

Seen Only Way To Save 'Annie'

KENTON, Ohio (P) — Unless an
appeal is made in her behalf with-
in the next 17 days, Annie, a
young St. Bernard dog, appears
doomed for the execution cham-
ber.

Annie, owned by Mrs. Joanna
Perkins of Kenton, is accused of
killing six sheep belonging to
Emerson Fay, a Hardin County
farmer, last February.

Auto Tag Fee Use Ruling Handed Down

COLUMBUS (AP)—Atty. Gen. William Saxbe has ruled that state auto tag fees, like gasoline taxes, may not be used by counties to pay off general obligation bonds, even if the bonds were issued for highway purposes.

In an opinion given Monday, the attorney general said that if coun-

ties used their share of such fees to retire the bonds it would in-volve an illegal transfer of funds.

Tommy Thevenow, Top Player Dies

MADISON, Ind. (AP)—Tommy Thevenow, 54, for several years one of the National League's outstanding shortstops, died at Kings Daughters Hospital Monday. He suffered a stroke last Friday.

Thevenow played with the St. Louis Cardinals from 1924 through 1928, then with the Philadelphia club for two years. He also played for Cincinnati, Boston and Pittsburgh.

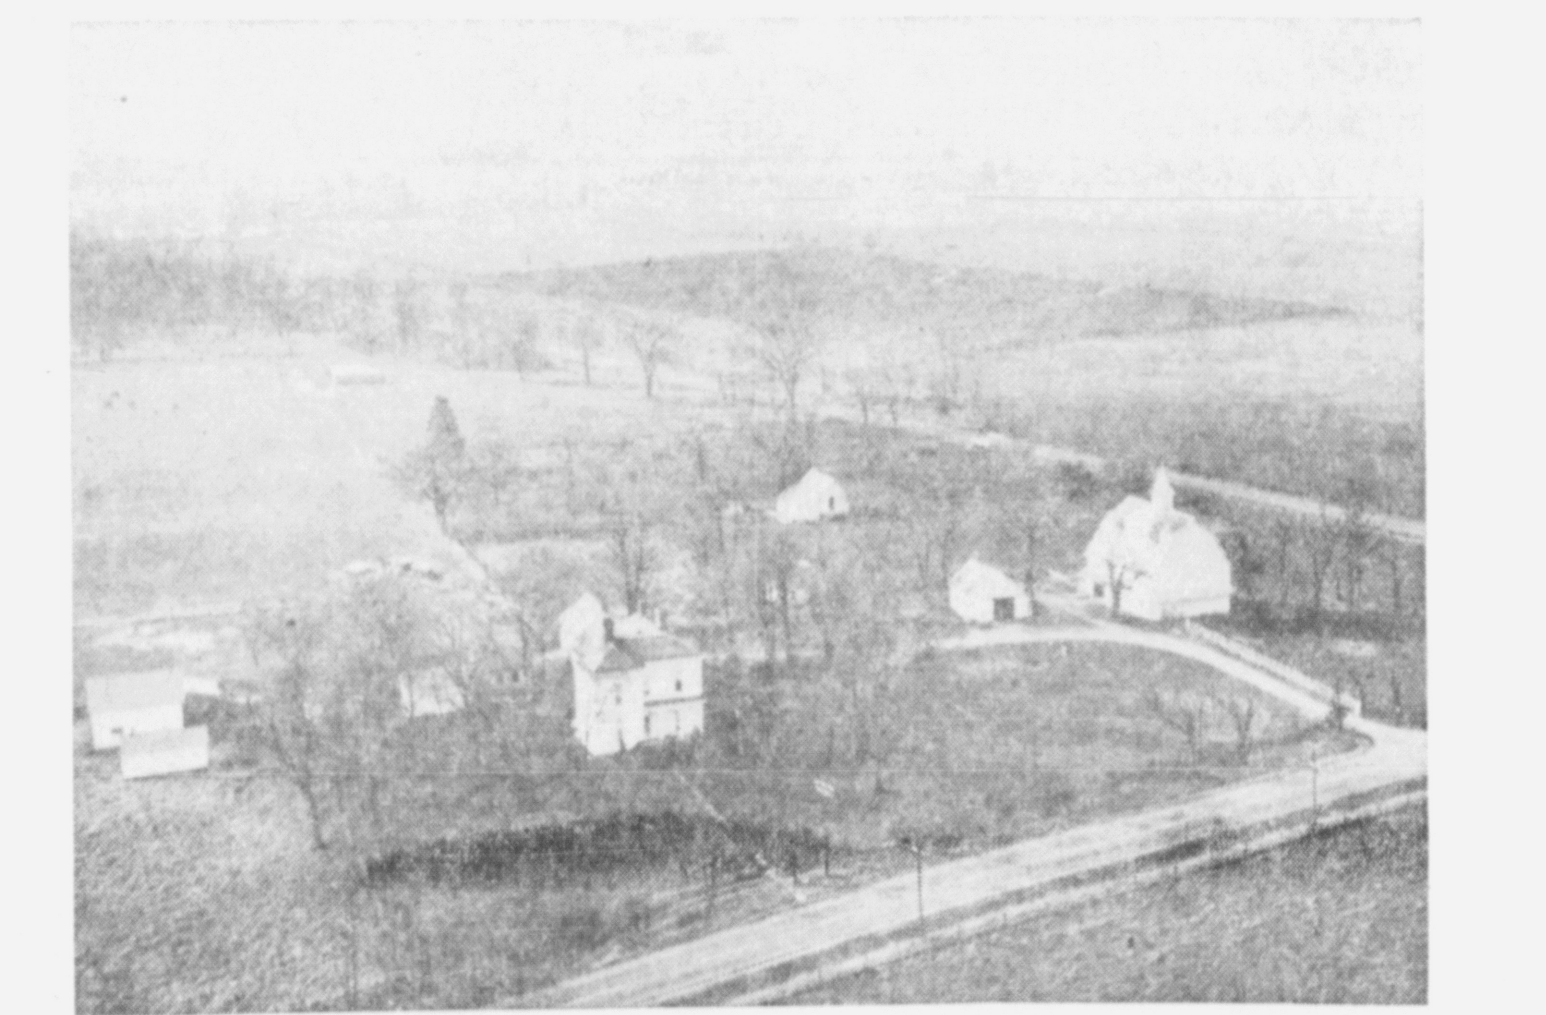

Since his retirement, Thevenow had conducted baseball training camps. He also operated a food store here.

There is a collection of ancient locomotives in a museum of transport 16 miles southwest of the St. Louis Union Station.

Tommy Thevenow, Top Player Dies

MADISON, Ind., Aug. 29—Tommy Thevenow, 54, for several years one of the National League's outstanding shortstops, died at Kings Daughters Hospital Monday. He suffered a stroke last Friday.
Thevenow played with the St. Louis Cardinals from 1924 through 1928, then with the Philadelphia club for two years. He also played for Cincinnati, Boston and Pittsburgh.
Since his retirement, Thevenow had conducted baseball training camps. He also operated a food store here.
There is a collection of ancient locomotives in a museum of transport 16 miles southwest of the St. Louis Union Station.

Unusual Crash Puts 2 in Court

Four Others Fined In Municipal Court

Two Bloomingburg men drew fines in Municipal Court Tuesday after an accident at the intersection of Dill and Hays Rd. near Bloomingburg about 10:45 p. m. Monday.

Officers from the Sheriff's Department said Sylvester Bowen, 49, was using his old-model car to push another old-model car driven by James Cleveland Reed, 34, north on Dill Rd.

They came to an intersection and "got their signals crossed," it was said — Reed slammed on his brakes and Bowen didn't slow down. Bowen's car was wrecked when it smashed into the rear of Reed's car which was pushed across the road into a ditch.

Officers investigating the mishap found Reed had no plates and Bowen no operator's license. Pleading guilty in Municipal Court, they drew fines of \$5 apiece.

FOUR OTHERS drew fines after they pleaded guilty before Judge Max G. Dice. Three others forfeited bond for failure to appear on speeding charges.

Fined \$5 apiece after they pleaded guilty to making excessive noise with trucks were Harold Smith, 31, of Columbus, and Jack Mitchell, 50, of Cincinnati. Loring Hamel, 43, of Route 70, north, was fined \$5 and costs after he pleaded guilty to driving with a defective truck muffler.

Manford Beach, 39, Route 6, Washington C. H., pleaded guilty to running a stop sign. He paid a \$5 fine.

Forfeiting \$20 bonds on speeding charges were Glen Zell, 28, of Cleveland, Eugene Buchler, 18, of London and Sandra Kerr, 19, of Indiana, Pa.

Rescuers Save Baby

(Continued from Page One) off the highway. The young mother was alone because her husband was going to a GI class at the Anderson High School. He was summoned home.

The child was wedged almost at the bottom of the narrow drill pipe of the old well. Doctors supervised piping oxygen to her while drilling experts bored a parallel well 40 feet deep and removed a section of pipe and an old bucket stuck in the pipe joint to reach her.

Mrs. Beasley said she thought some older children may have removed the heavy stone.

"The man who rescued her said she just grabbed his neck and smiled," Mrs. Beasley said, her voice still trembling with strain.

"The doctors said she just had a few scrapes. She was just dirty and hungry. They gave her warm milk at the hospital."

The four-hour fight for Yvonne's life drew hundreds of curious and sympathetic people to the Beasley home.

While Yvonne's parents cried, sobbed and prayed in each other's arms, the drill crew worked frantically, finally lowering Red Roberts of Anderson into a newly drilled parallel well after 4 hours and 20 minutes.

As Roberts appeared clutching the dirty child, the crowd cheered and wept. "She's OK," he yelled.

The rescue here was similar to that of 7-year-old Benn Hooper, of Manorville, N. Y., who was trapped near the bottom of a 24-foot well shaft in the back yard of his Long Island home for 23½ hours last May 16-17. Oxygen was pumped down to him during his long ordeal as rescue workers dug through to him. Benny suffered only minor injuries.

Prisoner List Climbs

TOLEDO (AP)—Toledo workhouse Supt. Ronald Lytle says the daily average of prisoners in his institution has increased from 161 in 1940 to 328 now.

Mainly About People

Army Reserve Maj. Robert W. Moyer, superintendent of the Kings-ton Schools and son of Mr. and Mrs. Hazel Moyer of near Washington C. H., has completed two weeks of active duty training at Ft. Lee, Va.

Al-C Reed Overly has been transferred from Donaldson Air Force Base, Greenville, S. C., to Scott Field, Ill., for 19 weeks advanced schooling in radio. He is the son of Mr. and Mrs. E. K. Overly, of Eymen Rd.

Dr. N. M. Reiff

(Continued from Page One) counseling with lay leaders.

The family suggested that those who wish may contribute to a Dr. N. M. Reiff Memorial Fund at Memorial Hospital instead of sending flowers. The fund will be used to purchase additional equipment for the treatment of heart disease.

HE IS survived by his wife, Mrs. Martha Reiff; two daughters, Miss Sally Ann and Miss Mary Jo, both at home; his father, Karl Reiff, of Hornell, N. Y., and a sister, Mrs. Melvin Bush, also of Hornell.

Services will be held at 3 p. m. Thursday at the Kirkpatrick Funeral Home here. Burial will be in the Washington C. H. Cemetery.

Friends may call at the funeral home after noon Wednesday.

Two Accident Victims

Treated at Hospital

Two medical and two accident cases were admitted to Memorial Hospital's emergency room Monday. After treatment all four were released.

Jim Merritt, son of Mr. and Mrs. Jim P. Merritt, 603 Eastern Ave., received treatment for a finger injury.

Kathy Pierce, 5, daughter of Mr. and Mrs. Charles Pierce, Route 2, was treated after a piece of steel flew off a hammer and struck her right leg.

Jack Whited, 1018 John St. and Mrs. Gerald Bragg, Route 1, Greenfield, received medical treatment.

Fire Damages Bobanna Farm Tenant House

Fire, apparently started by cooking sparks, did \$1,000 worth of damage Monday evening to a farm tenant house owned by Mr. and Mrs. Robert Terhune on the Cook-Yan keetown Rd. in Madison County.

The Terhunes, who live at 92 Lincoln Dr., Washington C. H., own six tenant houses on the "Bobanna Farms," in that area.

The flames, first noticed about 5:30 p. m., destroyed the roof and second floor of a home occupied by Mr. and Mrs. George Coder and their family.

Mrs. Coder said she had started the wood stove to cook supper and then gone into another room. The sparks apparently made their way up a chimney and ignited the wood shingle roof, she said.

Mt. Sterling firemen had the blaze under control by about 6:30 p. m. Terhune said. The Coder family lost many personal goods.

The family will be lodged in another tenant house on the farm while the damage, partially covered by insurance, is repaired, Terhune said.

Rodeo Performers Get Experience With Real Doggies

Francis Rowe of New Martinsburg and Bud Fitzpatrick now of Washington C. H., but formerly of Bandera, Texas, got some real cowboy experience Sunday when they helped Tom Hyde of near Chillicothe with his herd.

Seems four of Hyde's Herefords had pink eye. They had to be cut from the remainder of the herd and treated. A steer also got mixed up with the cows. He got a rope around his neck, too, and was hauled off to his own pasture.

Rowe and Fitzpatrick visited the Huye home Sunday and the three men spent the day corralling the pink eyed doggies and the steer.

Both Rowe and Fitzpatrick are rodeo enthusiasts. And they are not amateur by any means. Both have appeared in many top-notch Ohio rodeos and their work Sunday showed they were ready to compete among the best.

Both admitted getting a big charge out of Sunday's work. "It isn't often," Hyde explained, "that you get a chance to work with cattle that haven't been exposed to a rope before."

PRESIDENT - Directors of the Ohio Bell Telephone Co., have elected Walter S. Sparling (above) as company president to succeed John A. Greene and named Greene chairman of the board. Sparling, a veteran of 36 years with Ohio Bell who has been operating vice president since 1952, will be followed in that post by Gordon N. Thayer of New York, chief engineer of the American Telephone and Telegraph Co. All three men will take up their new duties Thursday.

Blessed Events

Mr. and Mrs. Dwight Duff, Route 5, are announcing the birth of a 10 pound 5 ounce son, born at 8:37 a. m. Monday in Memorial Hospital.

Mr. and Mrs. Donald V. Smith, Sabina, are the parents of a 5 pound 15 ounce son, born in Memorial Hospital at 9:55 p. m. Monday.

Only 15 percent of the land in Arizona is privately owned. The remainder belongs to the government, state and federal.

Expert Says Peaceful Atom Soon May Pay Weapons Bill

HAZLETON, Pa. (AP)—An atomic energy commissioner predicted today that savings from peaceful uses of radioisotopes will soon offset the cost of the nation's nuclear weapons program.

Dr. Willard F. Libby said "within three to five years—probably more nearly three, sometime in 1960—radioisotopes probably will be paying the whole way for the atom."

That means, he added, "the American people and the Western World will get their atomic armament and their atomic power development costs all free—in the sense that the benefits of five billion dollars annual savings in industrial processing and agricultural costs are pretty well distributed among the taxpayers."

Libby's comments were contained in a speech for the dedication of a new plant of the Beryllium Corp.

"Already, with our present 500 million dollars' annual savings for a direct outlay of about three million annually, isotopes are giving a fair return on the total investment in the whole atomic energy project," he said.

THE NUCLEAR weapons stockpile and atom power developments, Libby continued, "are beginning to be borne by the largely unsung but very benevolent isotopes."

Isotopes are different forms of the same element, and they have different characteristics. Some radio isotopes are by-products of atomic reactors.

As an example of the 500 millions yearly savings already achieved in agriculture and industry, Libby cited the use of radioisotopes as gauges in measuring, recording and controlling the

thickness of various materials such as aluminum and rubber.

He reported that U. S. manufacturers estimated they are saving 120 million dollars annually on costs through their use and that the savings probably will rise to a billion a year in two or three years.

Radioactive carbon, for example, now sells for \$22,000 per curie, Libby said. He said a price of \$110 per curie might become possible with volume production. The curie is a measure of radiation.

City Installing East St. Meters

Nine new parking meters are being installed on the north side of East St. between Fayette and North Sts. and probably will be in operation Wednesday.

Council authorized metering the north side of the block two months ago. The street is narrow and congested between Fayette and North, and the meters are expected to reduce parking on the north side of the street, except at those times when parking space is at a premium elsewhere.

The nine new meters bring the total in operation throughout the city to 516 which produce annual revenue of approximately \$42,000. Parking meters provide the largest single source of revenue for the city, and without the money collected from meters the city would be forced to seek an income tax or some similar source of operating funds, City Manager James F. Parkinson points out.

"Friends of Land" Buy Malabar Farm

A great many people from this area have visited the famous Louis Bromfield Malabar Farm and are wondering, what will become of this farm, since the death of Louis Bromfield.

Several weeks ago the Friends of the Land bought this farm and the two men most responsible are well known here. They are Dr. Jonathan Forman, president and Ollie E. Fink, executive secretary of the national organization.

Monday, these men with two other directors conferred with President Eisenhower concerning the development of this farm. President Eisenhower is reported to have said he was particularly happy that Friends of the Land, a conservation group, plan to operate this farm.

The president has expressed interest in the program of Friends of the Land for some time and was serving as one of the directors at the time of his first election to the presidency.

After he became president he was made an honorary director.

Progress Made At Test Well

At 8 a. m. Tuesday the Kewanee Oil Co.'s second test well was 1,436 feet in depth, and good headway was still being made. A small amount of ore and gas were struck around 1,750 feet in the well drilled in 1903 a mile south of the new test well.

The diamond drill was used during the previous 24 hours in coring out samples of the rock through which the bit was passing.

So far very few bits have been used in the present well, due to the softer formation, and it is expected that no "tough going" will be encountered for several hundred additional feet.

In all probability the present well will not be drilled more than 4,000 feet.

Four on Fishing Trip

In Canada for 2 Weeks

Norman Day and his son, Butch and Herbert Jones of Good Hope and James McCoy of Washington C. H. left Monday for a two-week fishing trip in Canada. They will headquarter at McGregor Bay in the province of Ontario.
